Machine Conversations Yorick Wilks, 2013-03-09 Machine Conversations is a collection of some of the best research available in the practical arts of machine conversation The book describes various attempts to create practical and flexible machine conversation ways of talking to computers in an unrestricted version of English or some other language While this book employs and advances the theory of dialogue and its linguistic underpinnings the emphasis is on practice both in university research laboratories and in company research and development Since the focus is on the task and on the performance this book provides some of the first rate work taking place in industry quite apart from the academic tradition It also reveals striking and relevant facts about the tone of machine conversations and closely evaluates what users require Machine Conversations is an excellent reference for researchers interested in computational linguistics cognitive science natural language processing artificial intelligence human computer interfaces and machine learning *Conversation for Action* Denise E. Murray, 1991-12-13 Today computer mediated communication spans a range of activities from interactive messages to word processing Researchers interested in this new technology have concentrated on its effects in the workplace for knowledge production and dissemination or on its word processing function The study reported here examines communication events in which the computer is the medium and views such computer mediated communication from the

perspective of language use Its goal is to understand through data collected from an anthropological perspective the ways of communicating used by members of an established community of computer users In particular it answers the questions i How do computer communicators choose among the available media and modes of communication ii What are the basic and recurring discourse patterns across media and modes through which this community achieves its institutional goals of innovation and product development iii How do the answers to the previous two questions inform our understanding of language use in general
