**Conceptions of Cosmos** Helge S. Kragh,2006-12-07 This book is a historical account of how natural philosophers and scientists have endeavoured to understand the universe at large first in a mythical and later in a scientific context Starting with the creation stories of ancient Egypt and Mesopotamia the book covers all the major events in theoretical and observational cosmology from Aristotle s cosmos over the Copernican revolution to the discovery of the accelerating universe in the late 1990s It presents cosmology as a subject including scientific as well as non scientific dimensions and tells the story of how it developed into a true science of the heavens Contrary to most other books in the history of cosmology it offers an integrated account of the development with emphasis on the modern Einsteinian and post Einsteinian period Starting in the pre literary era it carries the story onwards to the early years of the 21st century Conceptions of cosmos Helge Kragh,2015

A History of Religious Ideas: Volume 3 Mircea Eliade,2013-12-31 The conclusion of the three volume history rendered with the talent of one who is not only an academic writer but a novelist of considerable distinction David J Levy Times Higher Education Supplement In A History of Religious Ideas Mircea Eliade examines the movement of Jewish thought out of ancient Eurasia the Christian transformation of the Mediterranean area and Europe and the rise and diffusion of Islam from approximately the sixth through the seventeenth centuries Eliade s vast knowledge of past and present scholarship provides a synthesis that is unparalleled In addition to reviewing recent interpretations of the individual traditions he explores the interactions of the three religions and shows their continuing mutual influence to be subtle but unmistakable As in his previous work Eliade pays particular attention to heresies folk beliefs and cults of secret wisdom such as alchemy and sorcery and continues the discussion begun in earlier volumes of pre Christian shamanistic practices in northern Europe and the syncretistic tradition of Tibetan Buddhism These subcultures he maintains are as important as the better known orthodoxies to a full understanding of Judaism Christianity and Islam Acclaim for A History of Religious Ideas Everyone who cares about the human adventure will find new information and new angles of vision Martin E Marty The New York Times Book Review The volumes would be worth buying for the critical bibliographies alone but far more than this they represent the culmination of years of impassioned scholarship David J Levy Times Higher Education Supplement This multivolume work should be an essential resource for generations to come John Loudon Parabola

**The Ethical World-conception of the Norse People** Andrew Peter Fors,1904 Narrative, Social Myth and Reality in Contemporary Scottish and Irish Women's Writing Tudor Balinisteanu,2009-10-02 This book offers an original interdisciplinary analysis of the relations between myth identity and social reality involving elements of narratology theory linguistics philosophy anthropology and social theory harnessed to support an argument firmly located in the area of literary criticism This analysis yields a fairly extensive reinterpretation of the concept of myth which is applied to the examination of the relationship between narrative and social reality as represented in texts by contemporary Scottish and Irish women writers The main theoretical sources are Mikhail

Bakhtin's theories of heteroglossia Jacques Derrida's theories of citationality and Judith Butler's theories of subjectivity. The analysis framework developed in the book uses these theories to create a new way of understanding how literary texts change readers' worldviews by enticing them to accept alternative possibilities of cultural expression of identity and social order. The texts analysed in this book reconfigure naturalised stories that have become normative and constraining in conveying identities and visions of legitimate social orders. The book's focus on feminine identities places it alongside feminist analyses of reconstructions of fairy tales, myths or canonical stories that establish what counts as legitimate feminine identity. Studied here for the first time together, the writers whose texts form the interest of this book continue the revisionist work begun by other women writers who engage with the male-generated literary, philosophical and humanist tradition. They share a view of narratives as tools for continually negotiating our identities, social worlds and socialisation scenarios. While the high level theoretical discourse of the first part of the book requires specialised knowledge, the second part of the book offering close readings of the texts is both lively and accessible and should engage the interest of the general reader and academic alike. This book is written for all those who are interested in the power words have to hold sway over our inner and outer social worlds.

*Myth and Religion in Mircea Eliade* Douglas Allen, 1998 This is an interesting study with a great deal of information on Eliade's main themes and a detailed account of his understanding of myth.

**The Quest for a Common Humanity** Katell Berthelot, 2011-04-11 The worldview that all human beings belong to one big family has in the history of religions never been taken for granted. Moreover, human rights are a modern notion that should not be projected back onto the sacred texts of Judaism, Christianity and Islam. However, from the Hellenistic period onwards one encounters the idea of human duties towards not only parents, neighbours and fellow citizens but to all human beings. This volume explores the development of this idea from Antiquity to the present time, focussing on the other as neighbour, enemy and infidel on the interpretation of the Biblical story of Abraham's sacrifice and on ancient and modern ethical and legal implications of the concept of human dignity.

*The Myth of Quetzalcoatl* Enrique Florescano, 2002-11-29 In this comprehensive study, Enrique Florescano traces the spread of the worship of the Plumed Serpent and the multiplicity of interpretations that surround him by comparing the Palenque inscriptions (ca A.D. 690), the Vienna Codex (pre-Hispanic Conquest), the *Historia de los Mexicanos* (1531), the *Popul Vuh* (ca 1554) and numerous other texts. He also consults and reproduces archeological evidence from Mexico, Guatemala, El Salvador and Nicaragua, demonstrating how the myth of Quetzalcoatl extends throughout Mesoamerica.
