**Imagination** Shawn James Rosenheim,2020-03-24 Originally published in 1996 In *The Cryptographic Imagination* Shawn Rosenheim uses the writings of Edgar Allan Poe to pose a set of questions pertaining to literary genre cultural modernity and technology Rosenheim argues that Poe s cryptographic writing his essays on cryptography and the short stories that grew out of them requires that we rethink the relation of poststructural criticism to Poe s texts and more generally reconsider the relation of literature to communication Cryptography serves not only as a template for the language character and themes of much of Poe s late fiction including his creation the detective story but also as a secret history of literary modernity itself Both postwar fiction and literary criticism the author writes are deeply indebted to the rise of cryptography in World War II Still more surprising in Rosenheim s view Poe is not merely a source for such literary instances of cryptography as the codes in Conan Doyle s *The Dancing Men* or in Jules Verne but through his effect on real cryptographers Poe s writing influenced the outcome of World War II and the development of the Cold War However unlikely such ideas sound *The Cryptographic Imagination* offers compelling evidence that Poe s cryptographic writing clarifies one important avenue by which the twentieth century called itself into being The strength of Rosenheim s work extends to a revisionistic understanding of the entirety of literary history as a repression of cryptography and then in a breathtaking shift of register interlinks Poe s exercises in cryptography with the hyperreality of the CIA the Cold War and the Internet What enables this extensive range of applications is the stipulated tension Rosenheim discerns in the relationship between the forms of the literary imagination and the condition of its mode of production Cryptography in this account names the technology of literary production the diacritical relationship between decoding and encoding that the literary imagination dissimulates as hieroglyphics the hermeneutic relationship between a sign and its content Donald E Pease Dartmouth College      Codes and Secret Writing Herbert Spencer Zim,1966 Codes and scret writing is an introduction to a cascinating hobby      **UGC NET unit-9**
