Dialogues On Power And Space:

Dialogues on Power and Space Carl Schmitt, 2015-10-12 Written in the early stages of the Cold War by one of the most controversial political and legal thinkers of the twentieth century Carl Schmitt's two short dialogues on power and space bring together several dimensions of his work in new ways. The dialogues renew Schmitt's engagement with the questions of political power and geopolitics that had been a persistent concern throughout his intellectual life. As a basis on which to think through the historical role of human agency in relation to power and its new geographies, the dialogues condense and rework key concepts in Schmitt's political theory during a transitional period between his Weimar and fascist years to the post-war writings. In this book Schmitt develops a new dialectics of modern power and an original understanding of the global spatial transformations of the Cold War period. Equally important, the dialogues anticipate the debates on the new geopolitical possibilities and threats related to cosmic spaces overpowering technological advances and the existential predicament of the human in an increasingly multipolar world.

Reimagining Dialogue on Identity, Language and Power Ching-Ching Lin, Clara Vaz Bauler, 2023-12-12 In this book, dialogue is used as a research, knowledge sharing, and community building tool in which participants engage with each other in reflecting upon the perspectives of self and others, challenging, complementing, and contradicting each other as critical peers. The book aims to be an enactment of sociological reimagination as a way to reimagine public conversations that inspire criticality, innovation, and multimodality around the intersection of identity, self, language, mediating mechanism, and power, sociocultural domain. Each chapter illustrates the use of dialogue as a participatory research tool as a way in which the sharing of knowledge and the growth of understanding occurs through meaning and strategy-making processes. Together, they present dialogue as an integrative model of self-inquiry and social activism and provide a valuable standpoint to understand the participatory nature of our very effort to question and investigate our sense of self in the world.

Diasporas in Dialogue Barbara Tint, 2017-01-30 *Diasporas in Dialogue* is an indispensable guide for those leading or participating in dialogue processes, especially in ethnically diverse communities. The text offers both a theoretical and practical framework for dialogue, providing insight into the needs, assets, and challenges of working in this capacity. The first book to offer structured processes for dialogue with refugee communities, it demonstrates how diaspora communities can be engaged in dialogue that heals, reconciles, and builds peace. It relates the story of the Portland Diaspora Dialogue Project, a remarkable collaboration between university researchers and African community activists committed to helping newly arrived refugees. Written accessibly to provide practitioners, academics, and community members with a simple and cogent account of how step by step the process of healing communities and rebuilding can begin. Published at a critical time in the face of the worldwide refugee crisis, it offers helpful frameworks and practical tools for dialogue in situations where individuals and communities are displaced.
