Diamond Setting Manual:

The Diamond Setting Manual of Procedures & Techniques Robert R Wooding, 2002-01-01 This manual was designed as a reference source for common diamond setting procedures. The text is divided into seventeen units of instruction based on a series of actual professional case studies. Each unit includes discussions and illustrations that describe how to set diamonds into a particular type of mounting. They are presented in a step by step sequence of events as recorded during the time of setting. Optional techniques are suggested throughout the manual for a variety of circumstances. The manual provides steps in setting the following common stone shapes often seen in the industry: round, oval, pear, marquise, heart, triangular, square, emerald and baguette. Additional setting topics include: Pin Point, Illusion, Miracle, Channel, Bezel, Gypsy, Jewel Bar, Tip, Bead and Fishtail settings.

Diamond Setting: The Professional Approach Robert R Wooding, 1983-12-31 This book was written to teach diamond setting. It is basic enough to be understood by an apprentice who has very little background in the jewelry industry yet sufficiently in depth to benefit an experienced diamond setter. In either case the readers backgrounds were kept in perspective throughout the text. There is no intention to discriminate between retail and wholesale establishments. In effect the knowledge offered within is presented with enthusiasm and a desire to teach.
