

# Dictionary Guide

**definitions** - tell or explain the meaning of the entry word. Often the entry word will be used within the definition, to help make the meaning clear. Sometimes there will be more than one definition for an entry word, in which case will be numbered.

**entry words** - are the words that are listed in the dictionary in alphabetical order. They are usually shown in bold text or in a different colour so that they are easy to find amongst the definitions. When you're looking for how to spell a word or for the definition of a word, entry words are what you need to look for!

**parts of speech** - usually not in the entry word. They determine which word class the entry word belongs to or how it can be used in a sentence.

**guide words** - are the first and last words, that are explained, on that page of the dictionary. Find them at the top of the page.

**synonym** - shows the entry word broken up into syllables, this is done with small dots in between each part of the word.

**word forms** - show the different forms of a base word with any relevant suffixes added, including plural and past tense. These can be found at the end of the definition.
