## Calendrier Table B B S 2016 Collectif:

**The Edge** Roger Pielke, 2016-09-13 Roger Pielke reveals how sports stars break the rules in their search for a competitive edge Both entertaining and thought provoking THE EDGE not only visits the battlefields in the war against cheating and corruption but also explores ways to ensure that the spirit of sport can survive in today s high tech highly professional world Drawing on controversies straight out of the headlines Pielke looks at doping match fixing fake amateurism and other ways of breaking the rules But are those rules and the values they reflect hopelessly outdated Wonderfully readable and scrupulously researched THE EDGE blends science and journalism to produce an unforgettable account of sport in crisis     *Malicious Deceivers* Ioana B. Jucan, 2023-08-08 In *Malicious Deceivers* Ioana B Jucan traces a genealogy of post truth intimately tied to globalizing modernity and connects the production of repeatable fakeness with capitalism and Cartesian metaphysics Through case studies that cross times and geographies the book unpacks the notion of fakeness through the related logics of dissimulation deception and simulation performativity as seen with software AI television plastics and the internet Specifically Jucan shows how these dis simulation machines and performative objects construct impoverished pictures of the world ensuring a repeatable sameness through processes of hollowing out embodied histories and lived experience Through both its methodology and its subjects objects of study the book further seeks ways to counter the abstracting mode of thinking and the processes of voiding performed by the twinning of Cartesian metaphysics and global capitalism Enacting a model of creative scholarship rooted in the tradition of writing as performance Jucan a multimedia performance maker and theater director uses the embodied I as a framing and situating device for the book and its sites of investigation In this way she aims to counter the Cartesian voiding of the thinking I and to enact a different kind of relationship between self and world from the one posited by Descartes and replayed in much Western philosophical and more broadly academic writing a relationship of separation that situates the I on a pedestal of abstraction that voids it of its embodied histories and fails to account for its positionality within a socio historical context and the operations of power that define it
