It outlines a vision of the good working life as the simultaneous experience of high levels of job satisfaction, work meaningfulness and work psychological richness. In the chapters these three dimensions of the good working life are related to various individual differences such as demographic and personality characteristics as well as different work characteristics including job demands and job resources. The three dimensions of the good working life are also analysed across different industries and differentially related to important work outcomes such as job engagement, performance and occupational health as well as key life outcomes including life satisfaction, health, societal contributions and wisdom.
