The digital video revolution has blurred the lines between professional and amateur equipment with some Hollywood movies being shot and edited using the same technology that families use for their vacation footage. With sales of digital video cameras and computer based editing systems skyrocketing more and more people are seeing the potential and are anxious to advance their own personal video production skills to a higher level. You wanted pro level quality in a small, approachable package and you chose the right camera. The M50 Mark II can do all of that and more. But then reality hit. You opened the Canon instruction manual and were instantly overwhelmed by hundreds of pages of technical jargon, cryptic icons and settings that make no sense. You just want to know how to take a great picture or shoot a video without the stress. You searched YouTube for answers only to be flooded by fast talking tutorials that assume you already know what aperture, ISO and frame rate mean. If that sounds like you, this book was made for you. This guide speaks your language, not a photographer's textbook. We've stripped away the confusion and built a beginner first, visually rich, step by step companion to help you feel confident with your Canon EOS M50 Mark II from the very first shot. This isn't a recycled copy of Canon's manual. It's a hands on, human first field guide that covers what people really want to know: How to take your first great photo without understanding photography, How to focus, shoot and adjust settings visually, not theoretically, How to record high quality video and audio for YouTube or family moments, How to avoid blurry
