Culture, Media and Sport, Stationery Office, 2008      Guide to Security Considerations and Practices for Rare Book, Manuscript, and Special Collection Libraries Everett C. Wilkie, 2011-09 The Guide to Security Considerations and Practices for Rare Book Manuscript and Special Collection Libraries is the first such book intended specifically to address security in special collection libraries. Containing nineteen chapters, the book covers such topics as background checks, reading room and general building design, technical processing characteristics and methods of thieves' materials recovery after a theft, and security systems. While other topics are touched upon, the key focus of this volume is on the prevention of theft of rare materials. The work is supplemented by several appendices, one of which gives brief biographies of recent thieves and another of which publishes Allen's important Blumberg Survey, which she undertook after that thief's conviction. The text is supported by illustrations, a detailed index, and an extensive bibliography. The work compiled and edited by Everett C. Wilkie Jr. contains contributions from Anne Marie Lane, Jeffrey Marshall, Alvan Bregman, Margaret Tenney, Elaine Shiner, Richard W. Oram, Ann Hartley, Susan M. Allen, and Daniel J. Slive, all members of the ACRL Rare Books Manuscripts Section (RBMS) and experts in rare materials and the security of these materials within special collections. This work is essential reading for all those concerned with special collection security, from general library administrators to rare book librarians. c From Amazon.com

Module 1. Tuberculosis surveillance** World Health Organization, 2024-04-29 Since 1995 WHO has ensured a consistent approach to national, regional, and global TB surveillance by providing standardized definitions, forms, and registers for the recording and reporting of individual level and aggregated data about people diagnosed with and treated for TB, which are used worldwide. This standardization has facilitated the regular reporting of TB data to WHO from 215 countries and areas in annual rounds of global TB data collection, with findings published in an annual WHO global TB report since 1997 and data made publicly available via the online WHO global TB database. The goal of this 2024 edition of WHO guidance on TB surveillance, following the last major update published in 2013, is to ensure the continued worldwide standardization of TB

surveillance in the context of the WHO End TB Strategy the latest WHO guidelines on TB screening prevention diagnosis and treatment and commitments made at the 2023 UN high level meeting on TB while also promoting the establishment or strengthening of digital case based TB surveillance that is integrated within the overall public health architecture This 2024 edition provides a comprehensive and consolidated package bringing together both updated guidance as well as within web annexes closely related WHO products tools and documentation related to TB surveillance The web annexes and associated links to them are listed below The package was informed by and includes a summary of lessons learned about TB surveillance during more than 100 national TB epidemiological reviews conducted since 2013
