**Enhancing the Multicultural Campus Environment: A Cultural Brokering Approach** Frances K. Stage, Kathleen Manning, 1992 The general college student body has evolved from a homogenous predominantly white population to one that is culturally, racially and ethnically diverse. The findings of current research on achievement and retention of minority students are discouraging. Fewer minorities attend college success rates of those in college have not improved and dreams of achieving educational equity remain unfulfilled. This volume of *New Directions for Student Services* moves forward from a descriptive perspective of what is happening on college campuses. It describes an approach to working with students that involves cultural brokering which enjoins us to learn to think contextually, span boundaries, ensure optimum performance and take action. The cultural broker model is suggested for use with all students on today's campuses. The model presents a vision of practice that can respond to the diversity of the 1990s and beyond. This reflexive approach is defined as deliberate and thoughtful choices of action based on knowledge of cultural differences, expansion of personal experience to others, communities, education from a variety of perspectives and advocacy for broadening opportunities. For college administrators and student affairs professionals the perspectives and suggestions within this volume provide valuable insights about the creation and maintenance of multicultural campuses. This is the 60th issue of the quarterly journal *New Directions for Student Services*. For more information on the series please see the Journals and Periodicals page.

*The Multicultural Campus* Leonard A. Valverde, Louis Anthony Castenell, 1998-04-02 The *Multicultural Campus* brings together administrators, faculty and students to offer strategies that will alter the academic environment of the future. Hispanic, African and Asian American educational leaders examine the obstacles they have faced as minorities climbing up the predominantly white career ladder in American universities. Firsthand accounts show how change on governance, executive faculty and curricula levels will help us better educate all students in our nation's growing pluralistic society.
