## Difference And Repetition:

**Difference and Repetition** Gilles Deleuze, 2004-01-01 Since its publication in 1968 Difference and Repetition an exposition of the critique of identity has come to be considered a contemporary classic in philosophy and one of Deleuze's most important works. The text follows the development of two central concepts those of pure difference and complex repetition. It shows how the two concepts are related difference implying divergence and decentring repetition being associated with displacement and disguising. The work moves deftly between Hegel Kierkegaard Freud Althusser and Nietzsche to establish a fundamental critique of Western metaphysics and has been a central text in initiating the shift in French thought away from Hegel and Marx towards Nietzsche and Freud

When students read Difference and Repetition for the first time they face two main hurdles the wide range of sources that Deleuze draws upon and his dense writing style. This Edinburgh Philosophical Guide helps students to negotiate these hurdles taking them through the text paragraph by paragraph. It situates Deleuze within Continental philosophy more broadly and explains why he develops his philosophy in his unique way. If you're a seasoned Deleuzian there's something here for you too you won't want to miss Henry Somers Hall's new positive interpretation of Difference and Repetition

Where Viroid Life provided a compelling reading of Nietzsche's philosophy of the human Germinal Life is an original and groundbreaking analysis of little known and difficult theoretical aspects of the work of French philosopher Gilles Deleuze. In particular Keith Ansell Pearson provides fresh and insightful readings of Deleuze's work on Bergson and Deleuze's most famous texts Difference and Repetition and A Thousand Plateaus. Germinal Life also provides new insights into Deleuze's relation to some of the most original thinkers of modernity from Darwin to Freud and Nietzsche and explores the connections between Deleuze and more recent thinkers such as Adorno and Merleau Ponty
