Congregation Stories And Structures:

Congregation James F. Hopewell, In a unique full scale study of congregational life Hopewell shows that it is narrative the oral tradition that knits a congregation together **Congregation** James F. Hopewell,1987 Is the congregation a kind of machine This metaphor is implicit in those studies that assume congregations operate by rational cause effect principles have certain outcomes given certain inputs and can be made more productive if these principles are understood and the inputs controlled Hopewell proposes that we study congregations under an entirely different metaphor He says we should think of a congregation as a conversation a discourse an exchange of symbols through which meaning is both expressed and created Hopewell means by this something more intricate than simply that people talk to each other in church and the subject matter of this talk ought to be analyzed That s part of it but he suggests that all the interactions that go on in congregations including the rituals and gestures of both daily and formalized life together as well as the architecture and artifacts of the physical space in which they take place say something mean something are symbolic expressions Furthermore each such expression is responsive to and dependent upon other expressions to the point that no symbolic expression stands alone In other words the symbolic discourse is patterned and in different ways in different congregations These patterns are basic to the identities of particular congregations Hopewell s hunch is that if you can discern the patterns in and through the constant flow of symbolic discourse you can hear who a congregation is and understand what it is all about from a review in Perkins Journal by Craig Dykstra The Stories Congregations Tell Joel Thiessen,Arch Chee Keen Wong,Mark D. Chapman,2024-11-26 Congregations are story telling communities The stories they tell which link a community s past present and future can play an important role in whether a congregation flourishes or not The Stories Congregations Tell features detailed case study research from seven dynamic Canadian congregations across theological traditions and geographical regions Readers will encounter narratives that congregations tell themselves through a myriad of congregational and social transitions accounts that shape how congregations interpret frame approach and ultimately flourish in ministry On the surface congregational descriptions appear specific to local contexts Yet cultural analysis reveals several commonalities across distinct congregational cultures that appear resilient in the face of challenge and change These factors include visionary leadership clear congregational identity rooted in spiritual formation hospitable community among members and intentional systems and structures oriented toward a congregation s mission This book offers social scientific analysis and theological reflection on the stories congregations tell and the function those stories play for a congregation s culture along with practical and hopeful applications to arise from this research **The Catholic Charismatic Renewal in the UK** Keith Chappell,2023-10-20 Combining ethnographic research with theological analysis this book explores how the Catholic Charismatic Renewal CCR one of the largest new movements within the global Catholic Church has developed in contemporary Britain and Northern Ireland Drawing on extensive fieldwork this study analyses the beliefs behaviour and

worldviews of CCR members and considers how these relate to key theological themes in the movement's unique encounter between Pentecostalism and Catholicism. The author explores the extent to which the CCR has been integrated into the mainstream of the Catholic Church and how the movement's members have adapted their theology over time. Painting a picture of a diverse community, this book enriches understanding of the CCR and contemporary Christianity in Britain.

The Wisdom of the Seasons Charles M. Olsen, 2009-10-30. The church year is often seen as a framework for church programs, but well-known Alban author Charles Olsen shows readers how it can be a prism through which congregations more deeply understand their own stories. By weaving together our narratives and those of Christian tradition, a congregation can clarify its identity, grow in wisdom, and discover a new vision and ministry. Olsen draws parallels between the church seasons and practices of spiritual formation, letting go, naming, and celebrating God's presence, and taking hold. He shows us how these movements are expressed in the three major cycles of the church year: Christmas, Easter, and Pentecost. Focusing on communal narratives, he presents a process for telling a story and forming a corporate memory of the story, and then deepening and reflecting on it by exploring the season of the church year that captures its character. Encounter, 1992.

Rural Congregational Studies Loyle Shannon Jung, Mary A. Agria, 1997. Nearly all pastors sent to rural congregations were nurtured in larger urban congregations and nearly always educated in urbanized seminaries. A wide culture gap between leaders and members often emerges among the church leaders in rural congregations. This book is designed to address and study the issues that arise when ordained and lay pastors are called or appointed to rural congregations. This handbook will orient seminary students and pastors who are doing ministry in rural congregations. It focuses on the nature of congregational life in such a setting, showing ways to deal with the issues and challenges specific to rural culture. The authors tell how to best engage in evangelism and mission in the particular locations in which these congregations find themselves. Rural Congregational Studies: A Guide for Good Shepherds outlines features of different rural settings that affect life and church life. Each chapter contains a section of resources, sidebars, ideas, programs, and so forth that tie it to the chapter theme.
