

# Chemistry Final Exam Study Guide 2021-22

The final exam will cover chapters 6, 7, 8 and 9, with a few very basic questions from chapters 10 and 11. Recommended ways to prepare for final exam:

- **review objectives, notes, worksheets, charts, quizzes and exams.**
- **make your own study guide**
- If you missed questions on test or quizzes, reread those topics in the textbook.
- practice problems from each chapter: Appendix D in Pearson Chemistry has a problem bank with many of the answers included in the appendix. Use these for practice.
- use quizlets for reviewing vocabulary, naming compounds, or other topics. most chapters of Pearson have quizlets already made or you can make your own... I have reviewed the quizlets listed on your powerschool pages and listed only those I felt were accurate.
- Study buddies, quizzing classmates or other students taking chemistry
- Take the standardized test in the textbook at the end of each chapter. I will post the answers to each of these

The exam will consist of 65-80 questions, all multiple choice. There will be copies of the periodic table, polyatomic ion chart, and transition metal charts attached to the back of the exam. You will need your calculator to complete the final exam.
