**Map of the Soul - Persona** Murray Stein,2019-05-16 There is a lot of interest in today's culture about the idea of Persona and the psychological mapping of one's inner world In fact the interest is so strong that the superstar Korean Pop band BTS has taken Dr Murray Stein's concepts and woven them into the title and lyrics of their latest album Map of the Soul Persona What is our persona and how does it affect our life's journey What masks do we wear as we engage those around us Our persona is ultimately how we relate to the world Combined with our ego shadow anima and other intra psychic elements it creates an internal map of the soul T S Eliot one of the most famous English poets of the 20th Century wrote that every cat has three names the name that everybody knows the name that only the cat's intimate friends and family know and the name

that only the cat knows As humans we also have three names the name that everybody knows which is the public persona the name of that only your close friends and family know which is your private persona and the name that only you know which refers to your deepest self Many people know the first name and some people know the second Do you know your secret name your individual singular unique name This is a name that was given to you before you were named by your family and by your society This name is the one that you should never lose or forget Do you know it The Soul's Logical Life Wolfgang Giegerich,2008 C G Jung s psychology was based on an authentic notion of soul but this notion was only intuitive implicit not conceptually worked out His followers forfeit his heritage often turning psychology either into pop psychology or into a scientific clinical enterprise It is the merit of James Hillman s archetypal psychology to have brought back the question of soul to psychology But as imaginal psychology it cannot truly overcome psychology s positivistic personalistic bias that it set out to overcome Its Gods can be shown to be virtual reality type gods because it avoids the question of Truth Through what logically is the movement of an absolute negative interiorization alchemically a fermenting corruption and mythologically a Dionysian dismemberment one has to go beyond the imaginal to a notion of soul as logical life logical movement Only then can psychology be freed from its positivism and cease being a subdivision of anthropology and can the notion of soul be logically released from its attachment to the notion of the human being
