**Doubles and Hybrids in Latin American Gothic** Antonio Alcalá González, Ilse Marie Bussing López, 2019-09-25 *Doubles and Hybrids in Latin American Gothic* focuses on a recurrent motif that is fundamental in the Gothic the double This volume explores how this ancient notion acquires tremendous force in a region Latin America which is itself defined by duplicity indigenous European autochthonous religions Catholic Despite this duplicity and at the same time because of it this region has also generated mestizaje or forms resulting from racial mixing and hybridity This collection then aims to contribute to the current discussion about the Gothic in Latin America by examining the doubles and hybrid forms that result from the violent yet culturally fertile process of colonization that took place in the area

*Cryptic Subtexts in Literature and Film* Steven F Walker, 2018-07-17 One of the primary objectives of comparative literature is the study of the relationship of texts also known as intertextuality which is a means of contextualizing and analyzing the way literature grows and flourishes through inspiration and imitation direct or indirect When the inspiration and imitation is direct and obvious the study of this rapport falls into the more restricted category of hypertextuality What the author has labeled a cryptic subtext however is an extreme case of hypertextuality It involves a

series of allusions to another text that have been deliberately inserted by the author into the primary text as potential points of reference This book takes a deep dive into a broad array of literature and film to explore these allusions and the hidden messages therein *Celestina's Brood* Roberto González Echevarría,1993 Published in 1499 and centered on the figure of a bawd and witch Fernando de Rojas dark and disturbing Celestina was destined to become the most suppressed classic in Spanish literary history Routinely ignored in Spanish letters the book nonetheless echoes through contemporary Spanish and Latin American literature This is the phenomenon that Celestina s Brood explores Roberto Gonz lez Echevarra a one of the most eminent and influential critics of Hispanic literature writing today uses Rojas text as his starting point to offer an exploration of modernity in the Hispanic literary tradition and of the Baroque as an expression of the modern His analysis of Celestina reveals the relentless probing of the limits of language and morality that mark the work as the beginning of literary modernity in Spanish and the start of a tradition distinguished by a penchant for the excesses of the Baroque Gonz lez Echevarra pursues this tradition and its meaning through the works of major figures such as Cervantes Lope de Vega Calder n de la Barca Alejo Carpentier Carlos Fuentes Gabriel Garc a M rquez Nicol s Guill n and Severo Sarduy as well as through the works of lesser known authors By revealing continuities of the Baroque Celestina s Brood cuts across conventional distinctions between Spanish and Latin American literary traditions to show their profound and previously unimagined affinity *Carlos Fuentes* Wendy B.
