Music and Identity in Ireland and Beyond Mark Fitzgerald,John O'Flynn,2016-04-29 Music and Identity in Ireland and Beyond represents the first interdisciplinary volume of chapters on an intricate cultural field that can be experienced and interpreted in manifold ways whether in Ireland The Republic of Ireland and or Northern Ireland among its diaspora s or further afield While each contributor addresses particular themes viewed from discrete perspectives collectively the book contemplates whether music in Ireland can be regarded as one interrelated plane of cultural and or national identity given the various conceptions and contexts of both Ireland geographical political diasporic mythical and Music including a proliferation of practices and genres that give rise to multiple sites of identification Arranged in the relatively distinct yet interweaving parts of Historical Perspectives Recent and Contemporary Production and

Cultural Explorations its various chapters act to juxtapose the socio historical distinctions between the major style categories most typically associated with music in Ireland traditional classical and popular and to explore a range of dialectical relationships between these musical styles in matters pertaining to national and cultural identity The book includes a number of chapters that examine various movements and moments of traditional music revival from the late eighteenth century to the present day as well as chapters that tease out various issues of national identity pertaining to individual composers performers art music popular music and their audiences Many chapters in the volume consider mediating influences infrastructural technological political and or social categories class gender religion ethnicity race age in the interpretation of music production and consumption Performers and composers discussed include U2 Raymond Deane Afro Celt Sound System E J Moeran Samus Ennis Kevin O Connell Stiff Little Fingers Frederick May Arnold *The Early Years of Folk Music* David Dicaire,2010-03-30 This history of folk music looks at musicians collectors and other figures from around the world The book presents an overview of international folk roots and shows the contributions of the artists and the evolution of folk music as a force for political and social change Profiles of Pete Seeger Burl Ives Woody Guthrie and others show how the stage was set for the American folk revival of the 1960s *From Gaelic to Romantic* Fiona J. Stafford,Howard Gaskill,1998 The appearance of James Macpherson's Ossian in the 1760s caused an international sensation The discovery of poetic fragments that seemed to have survived in the Highlands of Scotland for some 1500 years gripped the imagination of the reading public who seized eagerly on the newly available texts for glimpses of a lost primitive world That Macpherson's versions of the ancient heroic verse were more creative adaptations of the oral tradition than literal translations of a clearly identifiable original may have exercised contemporary antiquarians and contributed eventually to a decline in the popularity of Ossian Yet for most early readers as for generations of enthusiastic followers what mattered was not the accuracy of the translation but the excitement of encountering the primitive and the mood engendered by the process of reading The essays in this collection represent an attempt by late twentieth century readers to chart the cultural currents that flowed into Macpherson's texts and to examine their peculiar energy Scholars distinguished in the fields of Gaelic German Irish Scottish French English and American literature language history and cultural studies have each contributed to the exploration of Macpherson's achievement with the aim of situating his notoriously elusive texts in a web of diverse contexts Important new research into the traditional Gaelic sources is placed side by side with discussions of the more immediate political impetus of his poetry while studies of the reception of Ossian in Scotland Germany France and England are part of the larger recognition of the cultural significance of Macpherson's work and its importance to issues of fragmentation liminality colonialism national identity sensibility and gender **Harp Music and Irish Nationalism** Kelly Lynn Keller Yoakam,2009 *Carolan: The notes to the tunes and the memoires of Arthur O'Neill* Donal O'Sullivan,1958 **The Harp: Its History, Technique and Repertoire** Roslyn Rensch,1969
