**Carolina Cottage** Margaret Ruth Little, 2010 Margaret Ruth Little's new book is a celebration and a history of one of the most recognizable vernacular house types in the Upper South the Carolina cottage The one and one half story side gabled cottage with its most distinctive feature an integral front porch known as a piazza offers not only beauty and hospitality but a rich history Intertwined with this history is the author's own account of rescuing and living in a 1775 cottage near Raleigh an experience that inspired and helps shape this charming book The Carolina cottage appears by the mid 1700s in the eastern Carolinas Substantial landowners and merchants favored the cottage type because of its sophisticated plan of one or two main rooms rear and attic bedchambers and piazza as well as its adaptation to the hot and humid climate Little explores and refutes the long held assumption that the cottage's origins are Caribbean She chronicles the cottage's parallel existence in South Carolina as a summer retreat built along the coast or in the pine barrens where plantation families lived during summer months to escape malaria and yellow fever The cottage remained popular as a small farmhouse or tenant house until the 1900s but has reappeared in recent years as a nostalgic Carolina reincarnation Little explores the cottage revival not just for the aesthetic appeal of its compact form but for its humble efficiency breezy open air living room hospitable corner bedrooms and the happiness that comes from simple healthy living      **Southern Studies** ,2012 An interdisciplinary journal of the South      [The North Carolina Historical Review](#) ,2012      [The Hearthstone, Or, Life at Home](#) Laura Carter Holloway,1887      [Country Life](#) ,1906      **Country Life in America** Liberty Hyde Bailey, Henry Hodgman Saylor,1917

**Sites Unseen** William A. Gleason, 2011-08-22 *Sites Unseen* examines the complex intertwining of race and architecture in nineteenth and early twentieth century American culture the period not only in which American architecture came of age professionally in the U.S. but also in which ideas about architecture became a prominent part of broader conversations about American culture history politics and although we have not yet understood this clearly race relations This rich and copiously illustrated interdisciplinary study explores the ways that American writing between roughly 1850 and 1930 concerned itself often intensely with the racial implications of architectural space primarily but not exclusively through domestic architecture In addition to identifying an archive of provocative primary materials *Sites Unseen* draws significantly on important recent scholarship in multiple fields ranging from literature history and material culture to architecture cultural geography and urban planning Together the chapters interrogate a variety of expressive American vernacular forms including the dialect tale the novel of empire letters and pulp stories along with the plantation cabin the West Indian cottage the Latin American plaza and the Oriental parlor These are some of the overlooked plots and structures that can and should inform a more comprehensive consideration of the literary and cultural meanings of American architecture Making sense of the relations between architecture race and American writing of the long nineteenth century in their regional national and hemispheric contexts *Sites Unseen* provides a clearer view not only of this catalytic era but also more broadly of what architectural

historian Dell Upton has aptly termed the social experience of the built environment
