Ansari, Sarvajeet Singh Gill, Zahid Khorshid Abbas, M Naeem, 2016-12-23 Results of regular monitoring of the species diversity  
and structure of plant communities is used by conservation biologists to help understand impacts of perturbations caused by  
humans and other environmental factors on ecosystems worldwide Changes in plant communities can for example be a  
reflection of increased levels of pollution a response to long term climate change or the result of shifts in land use practices  
by the human population This book presents a series of essays on the application of plant biodiversity monitoring and  
assessment to help prevent species extinction ecosystem collapse and solve problems in biodiversity conservation It has been  
written by a large international team of researchers and uses case studies and examples from all over the world and from a  
broad range of terrestrial and aquatic ecosystems The book is aimed at any graduate students and researchers with a strong  
interest in plant biodiversity monitoring and assessment plant community ecology biodiversity conservation and the
