## Effective Strategies for Improving Reading Skills

### 1 FOCUSING ON MAIN IDEA

Every paragraph and every piece of writing has a main idea.

This main idea is often expressed in the first sentence of the paragraph, or the first paragraph in a longer piece of writing.

Sometimes the main idea is found in the last sentence, but sometimes it's not expressed directly and can only be found by thinking about what drives all the ideas in the piece of writing together.

### 2 READING FACTS & DETAILS

Facts and details help explore the main idea.

Often, they express the who, what, when, where, why and how of a piece of writing, adding detail and drawing out the ideas in a piece more fully.

They often help describe a person, place or thing; expand on setting and place; or give you a better idea of how to do something.

### 3 UNDERSTANDING SEQUENCE

Sequence relates to the order in which things happen in a piece.

Many stories are told directly in the order in which things happen, but sometimes this order is flipped or rearranged. Words like next, first, second, then, last, finally, before and after can give hints as to the way a story is working in terms of sequence.

### 4 IDENTIFYING CAUSE & EFFECT

The cause is why something happens, and the effect is what happens.

They are not always stated in that order and often the reader will have to determine just what happened and why it did so. Sometimes the relationship is indicated with clue words such as since, because, therefore, because, as a result of, if, then and so as a consequence.

### DATA AND STATISTICS

Tables can help us tally up information.

They can help us make up what's missing or help us change to new values or convert one to another.

They can also help us figure out what's missing.

The nature of identifying cause and effect can vary with the text.

It can be as simple as identifying cause and effect in a story.

It can also involve identifying cause and effect in a non-fiction text.

It can also involve identifying cause and effect in a data table.
