The essential authoritative guide to providing accurate, systematic and reliable estimating for construction projects. Newly revised Pricing and bidding for construction work is at the heart of every construction business and in the minds of construction consultants. Poor bids lead to poor performance and nobody wins. New Code of Estimating Practice examines the processes of estimating and pricing, providing best practice guidelines for those involved in procuring and pricing construction works both in the public and private sectors. It embodies principles that are applicable to any project regardless of size or complexity. This authoritative guide has been completely rewritten to include much more contextual and educational material as well as the code of practice. It covers changes in estimating practice, the bidding process, the fundamentals in formulating a bid, the pre qualification process, procurement options, contractual arrangements and legal issues, preliminaries, temporary works, cost estimating techniques, risk management, logistics, resource and production planning, computer aided estimating, information and time planning, resource planning and pricing, preparation of an estimator's report, bid assembly and adjudication, pre production planning and processes, and site production. Established standard for the construction industry, providing the only code of practice on construction estimating. Prepared under the auspices of the Chartered Institute of Building and endorsed by a range of other professional bodies. Completely rewritten since the 7th edition to include much more contextual and educational material as well as the core code of practice. New Code of Estimating Practice is an important book for construction contractors.
