## Stories Twitter Trending S:

**Storytelling in the Digital World** Anna De Fina, Sabina Perrino, 2019-06-15 Storytelling in the Digital World explores new emerging narrative practices as they are enacted on digital platforms such as Amazon Facebook Twitter and YouTube Contributors online ethnographies investigate a wide range of themes including the nature of processes of transformation and recontextualization of offline events into digital narratives the effects of digital anonymity and pseudonymity on narrative practices the strategies through which virtual communities discursively work together to solidify and negotiate their sociocultural identities the tensions between the affordances that characterize different online media and the communicative needs of users the structures and modes in which virtual users construct and enact participatory practices in these environments and the significance of different spatiotemporal dimensions in the encoding sharing and appreciation of stories More generally the volume engages with some of the theoretical and methodological challenges that the growing presence of digital technologies and media poses to narrative analysis Originally published as special issue of Narrative Inquiry 27 2

2017 The Social Machine Judith Donath, 2014-05-23 New ways to design spaces for online interaction and how they will change society Computers were first conceived as thinking machines but in the twenty first century they have become social machines online places where people meet friends play games and collaborate on projects In this book Judith Donath argues persuasively that for social media to become truly sociable media we must design interfaces that reflect how we understand and respond to the social world People and their actions are still harder to perceive online than face to face interfaces are clunky and we have less sense of other people's character and intentions where they congregate and what they do Donath presents new approaches to creating interfaces for social interaction She addresses such topics as visualizing social landscapes conversations and networks depicting identity with knowledge markers and interaction history delineating public and private space and bringing the online world's open sociability into the physical world Donath asks fundamental questions about how we want to live online and offers thought provoking designs that explore radically new ways of interacting and communicating

### **Disinformation and Data**

**Lockdown on Social Platforms** Shawn Walker,Dan Mercea,Marco Bastos,2021-12-26 This book addresses the question of how researchers can conduct independent ethical research on mal mis and disinformation in a rapidly changing and hostile data environment The escalating issue of data access is thrown into sharp relief by the large scale use of bots trolls fake news and strategies of false amplification the effects of which are difficult to quantify due to a corporate environment favouring platform lockdowns and the restriction of access to Application Programming Interfaces APIs As social media platforms increase obstacles to independent scholarship by dramatically curbing access to APIs researchers are faced with the stark choice of either limiting their use of trace data or developing new methods of data collection Without a breakthrough social media research may go the way of search engine research in which only a small group of researchers who have direct relationships with search companies such as Google and Microsoft can access data and conduct research The chapters in this book were originally published as a special issue of the journal Information Communication Society

New Trends in Intelligent Software Methodologies, Tools and Techniques Hamido Fujita,Enrique Herrera-Viedma,2018-09-15 Knowledge based systems fully integrated with software have become essential enablers for both science and commerce But current software methodologies tools and techniques are not robust or reliable enough for the demands of a constantly changing and evolving market and many promising approaches have proved to be no more than case oriented methods that are not fully automated This book presents the proceedings of the 17th international conference on New Trends in Intelligent Software Methodology Tools and Techniques SoMeT18 held in Granada Spain 26 28 September 2018 The SoMeT conferences provide a forum for the exchange of ideas and experience foster new directions in software development methodologies and related tools and techniques and focus on exploring innovations controversies and the current challenges facing the software engineering community The 80 selected papers included here are divided into 13 chapters and cover subjects as diverse as intelligent software systems medical informatics and bioinformatics artificial intelligence techniques social learning software and sentiment analysis cognitive systems and neural analytics and security among other things Offering a state of the art overview of methodologies tools and techniques this book will be of interest to all those whose work involves the development or application of software

### **Cyberspaces and Global Affairs** Jake Perry,Professor Sean S

Costigan,2013-04-28 From the Facebook revolutions in the Arab world to the use of social networking in the aftermath of disasters in Japan and Haiti to the spread of mobile telephony throughout the developing world all of these developments are part of how information and communication technologies are altering global affairs With the rise of the social web and applications like Facebook YouTube and Twitter scholars and practitioners of international affairs are adapting to this new information space across a wide scale of issue areas In conflict resolution dialogues and communication are taking the form of open social networks while in the legal realm where cyberspace is largely lawless space states are stepping up policing

efforts to combat online criminality and hackers are finding new ways around increasingly sophisticated censorship. Militaries are moving to deeply incorporate information technologies into their doctrines and protesters are developing innovative uses of technology to keep one step ahead of the authorities. The essays and topical cases in this book explore such issues as networks and networked thinking, information ownership, censorship, neutrality, cyberwars, humanitarian needs, terrorism, privacy and rebellion, giving a comprehensive overview of the core issues in the field complemented by real world examples.

**The Publishers Weekly**, 2010    **From Sociology to Computing in Social Networks** Nasrullah Memon, Reda Alhajj, 2010-08-26. Important aspects of social networking analysis are covered in this work by combining experimental and theoretical research. A specific focus is devoted to emerging trends and the industry needs associated with utilizing data mining techniques. Some of the techniques covered include data mining advances in the discovery and analysis of communities in the personalization of solitary activities like searches and social activities like discovering potential friends in the analysis of user behavior in open fora like conventional sites, blogs and fora and in commercial platforms like e-auctions and in the associated security and privacy preservation challenges as well as social network modeling, scalable, customizable social network infrastructure construction and the identification and discovery of dynamic growth and evolution patterns using machine learning approaches or multi agent based simulation. These topics will be of interest to practitioners and researchers alike in this dynamic and growing field.
