Igor Primoratz

Civilian Immunity In War

Gordon Martel

Civilian Immunity In War:

Civilian Immunity in War Igor Primoratz, 2007-10-04 The protection of noncombatants from deadly violence is the centrepiece of any account of ethical and legal constraints on war It was a major achievement of moral progress from early modern times to World War I Yet it has been under constant attrition since perhaps never more so than in our time with its new wars the spectre of weapons of mass destruction and the global terrorism alert *Civilian Immunity in War* written in collaboration by eleven authors provides the first comprehensive analysis of all main aspects of this highly topical subject It considers the arguments for rejection of civilian immunity and the main theories of the grounds and proper scope of this immunity both deontological just war theory and consequentialist Separate chapters examine the historical development of the idea of civilian immunity its standing in current international law and the problem of collateral damage of harming civilians without intent as a side effect of attacks on military targets The volume also addresses a string of specific issues Civilian immunity has undergone much attrition with the development of air warfare and the tendency of military conflict to degenerate into total war On the other hand modern military technology with its precision guidance missiles and smart bombs opens up the possibility of restricting deadly violence to its proper targets and staying clear of civilian life limb and property Another pressing issue is the fate of women in war in light of mass rapes characteristic of some new wars

Civilian Victims in War Alan L. Grey, 2017-07-05 The status of the civilian today is that of a calculated casualty to die immediately or after agonizing suffering The civilian is also a hostage in the political power struggle since his continued safety depends upon the decision or even impulse of his leaders This is true if he is a citizen of a major power or if he lives elsewhere in unstable social and political environments Hartigan s book is a unique effort to deal with a mass but hidden problem the status of the civilian non combatant in conditions of armed conflict *Civilian Victims in War* fills the gaps in our knowledge of the origins of civilian immunity so that a full evaluation of the principle s continued worth may be made The book reviews the concepts of noncombatants civilian immunity how it arose from need and intuition and developed into legal practice The volume focuses on the development of this concept in the Western tradition not because civilian immunity was absent in Asia or Africa but because its present formulation owes its origin and elaboration to European custom practice and thought *Civilian Victims in War* is the first book to deal with the central theme of the innocent non combatant Hartigan seeks to pursue this subject in greater depth and asks the intelligent layman to reconsider his or her options in the face of modern warfare He touches on many subjects in this work which will spark interest with the general public and policy personnel those who should recognize themselves as civilians and see this book as their tragic history

The Encyclopedia of War, 5 Volume Set Gordon Martel, 2012-01-17 This ground breaking 5 volume reference is a comprehensive print and electronic resource covering the history of warfare from ancient times to the present day across the entire globe Arranged in A Z format the Encyclopedia provides an overview of the most important events people and terms associated with warfare from the

Punic Wars to the Mongol conquest of China and the War on Terror from the Ottoman Sultan Suleiman the Magnificent to the Soviet Military Commander Georgi Konstantinovich Zhukov and from the crossbow to chemical warfare Individual entries range from 1 000 to 6 000 words with the longer essay style contributions giving a detailed analysis of key developments and ideas Drawing on an experienced and internationally diverse editorial board the Encyclopedia is the first to offer readers at all levels an extensive reference work based on the best and most recent scholarly research The online platform further provides interactive cross referencing links and powerful searching and browsing capabilities within the work and across Wiley Blackwell s comprehensive online reference collection Learn more at www.encyclopediaofwar.com Selected by Choice as a 2013 Outstanding Academic Title Recipient of a 2012 PROSE Award honorable mention

War by Agreement Yitzhak Benbaji, Daniel Statman, 2019 War by Agreement presents a new theory on the ethics of war It shows that wars can be morally justified at both the ad bellum level the political decision to go to war and the in bello level its actual conduct by the military by accepting a contractarian account of the rules governing war According to this account the rules of war are anchored in a mutually beneficial and fair agreement between the relevant players the purpose of which is to promote peace and to reduce the horrors of war The book relies on the long social contract tradition and illustrates its fruitfulness in understanding and developing the morality and the law of war

Encyclopedia of War Crimes and Genocide Leslie Alan Horvitz, Christopher Catherwood, 2014-05-14 Entries address topics related to genocide crimes against humanity and peace and human rights violations profile perpetrators including Joseph Stalin Pol Pot and Idi Amin and discuss institutions set up to prosecute these crimes in countries around the world

Military Ethics Igor Primoratz, 2017-05-15 Recent developments such as the new wars or the growing privatisation of warfare and the ever more sophisticated military technology present the military with difficult ethical challenges This book offers a selection of the best scholarly articles on military ethics published in recent decades It gives a hearing to all the main ethical approaches to war just war theory consequentialism and pacifism Part I includes essays on justice of war jus ad bellum focussing on defence against aggression and humanitarian armed intervention but also addressing topics such as conscientious objection and the relation of patriotism to war Articles in Part II deal with the central problems of justice in war jus in bello civilian immunity and collateral damage to civilian life and property Essays in Part III look into the moral issues facing the military as a profession such as the civil military relations the responsibilities of officers to their soldiers and to their military superiors and the status and responsibilities of prisoners of war

Protecting Civilians During Violent Conflict Igor Primoratz, 2016-04-15 There is almost unanimous agreement that civilians should be protected from the direct effects of violent conflict and that the distinction between combatant and non combatant should be respected But what are the fundamental ethical questions about civilian immunity Are new styles of conflict making this distinction redundant Eloquently combining theory and practice leading scholars from the fields of political science law and philosophy have been brought together to provide an essential overview of some of the major ethical

legal and political issues with regard to protecting civilians caught up in modern inter and intra state conflicts In doing so they examine what is being done and what can be done to make soldiers more aware of their responsibilities in this area under international law and the ethics of war and more able to respond appropriately to the challenges that will confront them in the field Protecting Civilians During Violent Conflict presents a clear eyed look at the dilemmas facing regular combatants as they confront enemies in the modern battlespace and especially the complications arising from the new styles of conflict where enemy and civilian populations merge

Ethics and War Steven P. Lee, 2012 An account of war ethics sensitive to the historical just war theory informed by the contemporary concerns of war

Killing in War Jeff McMahan, 2009-04-23 Killing a person is in general among the most seriously wrongful forms of action yet most of us accept that it can be permissible to kill people on a large scale in war Does morality become more permissive in a state of war Jeff McMahan argues that conditions in war make no difference to what morality permits and the justifications for killing people are the same in war as they are in other contexts such as individual self defence This view is radically at odds with the traditional theory of the just war and has implications that challenge common sense views McMahan argues for example that it is wrong to fight in a war that is unjust because it lacks a just cause

The Philosopher's Index, 2008 Vols for 1969 include a section of abstracts

Encyclopedia of Applied Ethics, 2012-01-10 The Encyclopedia of Applied Ethics Second Edition Four Volume Set addresses both the physiological and the psychological aspects of human behavior Carefully crafted well written and thoroughly indexed the encyclopedia helps users whether they are students just beginning formal study of the broad field or specialists in a branch of psychology understand the field and how and why humans behave as we do The work is an all encompassing reference providing a comprehensive and definitive review of the field A broad and inclusive table of contents ensures detailed investigation of historical and theoretical material as well as in depth analysis of current issues Several disciplines may be involved in applied ethics one branch of applied ethics for example bioethics is commonly explicated in terms of ethical legal social and philosophical issues Editor in Chief Ruth Chadwick has put together a group of leading contributors ranging from philosophers to practitioners in the particular fields in question to academics from disciplines such as law and economics The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics Computers and Information Management Economics Business Environmental Ethics Ethics and Politics Legal Medical Ethics Philosophy Theories Social and Social Media Concise entries ten pages on average provide foundational knowledge of the field Each article will feature suggested readings pointing readers to additional sources for more information a list of related websites a 5 10 word glossary and a definition paragraph and cross references to related articles in the encyclopedia Newly expanded editorial board and a host of international contributors from the US Australia Belgium Canada France Germany Ireland Israel Japan Sweden and the United Kingdom The 376 chapters are divided into 4 volumes each chapter falling into a subject category including Applied Ethics Bioethics

Air Power and War Rights James Molony Spaight, 1924 **Protecting Civilians During Violent Conflict** Igor Primoratz, David W. Lovell, 2016-04-15 There is almost unanimous agreement that civilians should be protected from the direct effects of violent conflict and that the distinction between combatant and non combatant should be respected But what are the fundamental ethical questions about civilian immunity Are new styles of conflict making this distinction redundant Eloquently combining theory and practice leading scholars from the fields of political science law and philosophy have been brought together to provide an essential overview of some of the major ethical legal and political issues with regard to protecting civilians caught up in modern inter and intra state conflicts In doing so they examine what is being done and what can be done to make soldiers more aware of their responsibilities in this area under international law and the ethics of war and more able to respond appropriately to the challenges that will confront them in the field Protecting Civilians During Violent Conflict presents a clear eyed look at the dilemmas facing regular combatants as they confront enemies in the modern battlespace and especially the complications arising from the new styles of conflict where enemy and civilian populations merge **The Canada Law Journal** , 1916 **Justice Among Nations** Thomas L. Pangle, Peter J. Ahrens Dorf, 1999 This text provides an introduction to conceptions of international justice spanning 2500 years of intellectual history from Thucydides and Plato to Morgenthau and Waltz It shows how older traditions of political philosophy remain relevant to contemporary debates in international relations Non-Combatant Immunity as a Norm of International Humanitarian Law Judith Gail Gardam, 2023-11-27 Despite the advances made by the international community to outlaw the resort to force by the United Nations Charter armed conflicts both international and non international are a fact of every day life The civilian casualties from such conflicts have assumed catastrophic proportions Little attention however has been paid by scholars to the treatment of noncombatants in armed conflict and the place in international law of the principle fundamental to the law of armed conflict noncombatant immunity This work aims to remedy this omission The author analyses in detail the content of the customary and conventional rules that give effect to this principle in both international and non international armed conflict The importance of such a study is highlighted by the recent Gulf conflict where so many of the States were not bound by the most recent treaty rules protecting noncombatants **United Empire** , 1916 The Morality of War David Todd Kinsella, Craig L. Carr, 2007 A highly useful core text for courses in the field as well as an invaluable reference for any serious student of the ethics of war Albert Pierce U S Naval Academy When and why is war justified How morally speaking should wars be fought The Morality of War confronts these challenging questions surveying the fundamental principles and themes of the just war tradition through the words of the philosophers jurists and warriors

who have shaped it The collection begins with the foundational works of just war theory as well as those of two competing perspectives realism and pacifism Subsequent selections focus on issues related to the resort to war the conduct of war and the judgment of war crimes Both traditional just war concerns and those that have emerged in response to contemporary developments such as the U S war on terror are thoroughly covered With articles that are crucially relevant to today s world paired with contextual introductions to each section the reader is ideally constructed to inform and guide students as they consider the morality of past and current military actions David Kinsella is associate professor of political science at the Hatfield School of Government Portland State University He is editor of International Studies Perspectives and coauthor of World Politics The Menu for Choice Craig L Carr is professor of political science at the Hatfield School of Government He is author of On Fairness and editor of The Political Writings of Samuel Pufendorf Social Theory and Practice ,2021-07
