Civilization V Beginners Guide:

Ideology and Meaning-Making under the Putin Regime Marlene Laruelle, 2025-01-14 Much has been written to try to understand the ideological characteristics of the current Russian government as well as what is happening inside the mind of Vladimir Putin. Refusing pundits' clichés that depict the Russian regime as either a cynical kleptocracy or the product of Putin's grand Machiavellian designs, *Ideology and Meaning Making under the Putin Regime* offers a critical genealogy of ideology in Russia today. Marlene Laruelle provides an innovative multi-method analysis of the Russian regime's ideological production process and the ways it is operationalized in both domestic and foreign policies. *Ideology and Meaning Making under the Putin Regime* reclaims the study of ideology as an unavoidable component of the tools we use to render the world intelligible and represents a significant contribution to the scholarly debate on the interaction between ideas and policy decisions. By placing the current Russian regime into a broader context of different strains of strategic culture, ideological interest groups, and intellectual history, this book gives readers key insights into how the Russo-Ukrainian War became possible and the role ideology played in enabling it. *Media Review Digest* C Edward Wall, 2005-08

[A-Z] National Library Service Corporation, 1975 [Paperbacks in Print](#), 1978 **Political Ideologies in Contemporary Russia** Elena Chebankova, 2020-11-18 In the realm of political discourse, there is a distinct gap in understanding between Russia and the West. To an outsider, the ideas that animate the actions of Russia's ruling elite, opposition, and civil society, from the motivations driving Russia's political actors to the class structure and international and domestic constraints that shape Russia's political thinking, remain shrouded in mystery. Contrary to the view that a bleak discursive uniformity reigns in Vladimir Putin's Russia, *Political Ideologies in Contemporary Russia* shows that the country is engaging in serious theoretical debates across a wide spectrum of modern ideologies, including liberalism, nationalism, feminism, and multiculturalism. Elena Chebankova argues that the nation is fragmented and the state seeks to balance the various ideological movements to ensure that none dominates. She shows that each of the main ideological trends is far from uniform, but the major opposition is between liberalism and traditionalism. The pluralistic picture she describes contests many current portrayals of Russia as an authoritarian or even totalitarian state. Offering an alternative to the Western lens through which to view global politics, *Political Ideologies in Contemporary Russia* is a major contribution to our understanding of this world power.
