**Positive Learning Environments : Creating and Maintaining Productive Classrooms** John De Nobile, Gordon Lyons, Michael Arthur-Kelly, 2020-09-21. How do you create a learning environment that's productive one where students are engaged, learning, and happy? And how do you ensure that inappropriate behaviours are kept to a minimum? The second edition of **Positive Learning Environments: Creating and Maintaining Productive Classrooms** introduces the key concepts teachers need to know to create and maintain their classroom as a positive learning environment. It begins by introducing four essential components that are the cornerstones of creating a positive, productive learning environment. These positive practices set readers on the pathway to success and help them establish classrooms that recognise and encourage appropriate behaviours while reducing the probability of inappropriate behaviours. It then examines in turn each of the four main groups of evidence-based approaches to managing student behaviour: behavioural, cognitive, behavioural psychoeducational, and social justice approaches. For each, it discusses the theories that inform them, their practical applications for fostering appropriate behaviours, and also when and how to use them to proactively intervene if necessary. By the end, readers are empowered to select appropriate theories, approaches, and strategies and bring these together to develop their individualised classroom management plan, one that suits their own theoretical beliefs, professional philosophy, and teaching style.
