Have read my fair share of self help books. Some good, many bad, but *Tips for Livin'* is unique in the genre and it is great. The author has a no BS way of getting to the point. He isn't a scientist. He is a guy who has lived and found a good way to navigate this life thing. If you want to feel a little more inspired while also seeing the world from a cool perspective, then get *Tips for Livin'*. Mike V. Reviewer via NetGalley. Outstanding Reading Material. This book has many great suggestions and learning episodes in and worth a read for sure. A few hours and you're complete. *Tips for Livin'*. Donald Anderson via Amazon. A Life Companion. *Tips for Livin'* has a concise, no-fluff approach to the lived experience and our own hubris. It covers topics from individuality, self development, discipline, relationships, and creative momentum. What I found refreshing about the writing style is that it conveys stoicism in a gentle yet colloquial manner that is applicable to the modern age. If you're feeling stuck or overwhelmed, this is definitely worth the read. The author seamlessly distills eastern philosophy through a western lens, offering guidance to all walks of life. Although our paths may become difficult, a little bit of grit and conscientiousness goes a long way. Best enjoyed with a cup of coffee. Misty via Amazon. [The Art of Self-Improvement](#). Anna Katharina Schaffner, 2021-09-14. A brilliant distillation of the key ideas behind successful self improvement practices throughout history, showing us how they remain relevant today. Self help today is a multi billion dollar global industry, one often seen as a by product of neoliberalism and capitalism. Far from

being a recent phenomenon however the practice of self improvement has a long and rich history extending all the way back to ancient China For millennia philosophers sages and theologians have reflected on the good life and devised strategies on how to achieve it Focusing on ten core ideas of self improvement that run through the world's advice literature Anna Katharina Schaffner reveals the ways they have evolved across cultures and historical eras and why they continue to resonate with us today Reminding us that there is much to learn from looking at time honed models Schaffner also examines the ways that self improvement practices provide powerful barometers of the values anxieties and aspirations that preoccupy us at particular moments in time and expose basic assumptions about our purpose and nature
