**Recitations for Young Speakers, Or, Popular Program** Henry Davenport Northrop, 1899

**Statistics in Practice** David S. Moore, William I. Notz, Michael A. Fligner, 2014-07-18

Statistics in Practice is an exciting new addition to W H Freeman's introductory statistics list. Co-authored by David Moore, it maintains his pioneering data analysis approach but incorporates significant changes designed to help students. Statistics in Practice introduces data collection early, covers tests of proportions first before tests of means, and engages students with its conversational writing style. SIP is a modern approach to the introductory statistics course, clearly showing the importance of statistics to students during their academic life and beyond.

The Basic Practice of Statistics David S. Moore, William I. Notz, Michael A. Fligner, 2015-01-09

David Moore's data analysis conceptual approach, which revolutionized the introductory statistics textbook, moves students away from formulas and number crunching, focusing instead on how working statisticians in a variety of fields collect and analyze data and use the results to tackle real-world problems. The clear, direct way of emphasizing the course's relevance and confronting students' math anxieties is at the heart of the bestselling *The Basic Practice of Statistics* (BPS). It is also the ideal approach for taking full advantage of the powerful statistical tools and interactive learning features in this new edition's text/media package. Now more than ever, BPS is ready to help students move from reading about statistical practice to practicing statistics themselves.
