

**CHAPTER  
13  
SECTION 2****READING COMPREHENSION****Presidential Succession and the Vice Presidency 3**

1. Briefly explain how each of the following provides for presidential succession:

a. the original provisions of the Constitution Do not provide for the succession of a vice president; rather declared that the powers and duties of the office of the president would be "devolve on the vice president."

b. the 25th Amendment declared that the vice president become president in case of removal of the president from office or of his death or resignation

c. the Presidential Succession Act of 1947 Fixes the order following the vice president:  
Says the speaker of the house and then the president pro temp of the senate are next

2. How does the 25th Amendment provide for situations in which the President is disabled?

It says the Vice President is to become Acting President if (1) the President informs Congress, in writing, that he is unable to discharge the powers and duties of his office, or (2) the Vice President and a majority of the members of the Cabinet inform Congress, in writing, that the President is so incapacitated.

3. List the two formal duties that the Constitution assigns to the Vice President:

a. To preside over the Senate  
b. To help decide the question of presidential disability

4. Why can the position of the Vice President be considered both very important and very unimportant?

The Vice President is very important because he or she is only a heartbeat away from the presidency. However, the Constitution pays little attention to the office of the Vice President, and many Vice Presidents have had little to do.

5. What does it mean to "balance the ticket"?

To "balance the ticket" means to choose a running mate (candidate for Vice President) who can strengthen the presidential candidate's chances of being elected by virtue of certain ideological, geographic, racial, ethnic, gender, or other characteristics.

6. How has the vice presidency changed in recent years?

Recent Presidents have made much greater use of their Vice Presidents, so the office has been reinvented and has become more influential

7. What is the procedure for filling a vacancy in the vice presidency?

President nominates a vice president and they must be confirmed by a majority votes of both houses of congresses.

## Civics Ch 13 Study Guide:

**Democracy's Discontent and Civic Learning** Charles S. White, 2018-07-10 This volume explores the global decline in democracy and rising nationalism. It examines partisanship, populism, social media's role and racism. The book emphasizes rebuilding civic infrastructure through effective civic education to restore trust and prepare citizens for democratic engagement.

**Teaching Civic Engagement** Forrest Clingerman, Reid B. Locklin, 2017-08 Teaching Civic Engagement offers a new conceptual model, an examination of theoretical questions and concerns, and a variety of concrete teaching strategies to assist faculty in engaging questions of civic belonging and social activism in religion classrooms. The book explores the civic relevance of the academic study of religion.

**Learning Through Serving** Christine M. Cress, Peter J. Collier, Vicki L. Reitenauer, 2023-07-03 This substantially expanded new edition of this widely used and acclaimed text maintains the objectives and tenets of the first. It is designed to help students understand and reflect on their community service experiences both as individuals and as citizens of communities in need of their compassionate expertise. It is designed to assist faculty in facilitating student development of compassionate expertise through the context of service in applying disciplinary knowledge to community issues and challenges. In sum, the book is about how to make academic sense of civic service in preparing for roles as future citizen leaders. Each chapter has been developed to be read and reviewed in sequence over the term of a service learning course. Students in a semester course might read just one chapter each week while those in a quarter term course might need to read one to two chapters per week. The chapters are intentionally short, averaging 8 to 14 pages so they do not interfere with other course content reading. This edition presents four new chapters on Mentoring, Leadership, Becoming a Change Agent, and Short Term Immersive and Global Service Learning experiences. The authors have also revised the original chapters to more fully address issues of social justice, privilege, power, diversity, intercultural communication, and technology. They have added more disciplinary examples, incorporated additional academic content for understanding service learning issues (e.g., attribution theory) and cover issues related to students with disabilities and international students. This text is a student friendly, self-directed guide to service learning that develops the skills needed to succeed. Clearly links service learning to the learning goals of the course. Combines self study and peer study workbook formats with activities that can be incorporated in class to give teachers maximum flexibility in structuring their service learning courses. Promotes independent and collaborative learning. Equally suitable for courses of a few weeks or a few months duration. Shows students how to assess progress and communicate end results. Written for students participating in service learning as a class but also suitable for students working individually on a project. Instructor's Manual. This Instructor's Manual discusses the following six key areas for aligning your course with use of Learning through Serving whether you teach a senior level high school class, freshman studies course, or a college capstone class. 1. Course and syllabus design, 2. Community partner collaboration, 3. Creating class community, 4. Strategic teaching techniques, 5. Developing intercultural

Promoting Global Peace and Civic Engagement through Education Pandey, Kshama, 2016-05-04. It is easy to see that the world finds itself too often in tumultuous situations with catastrophic results. An adequate education can instill holistic knowledge, empathy, and the skills necessary for promoting an international coalition of peaceful nations. *Promoting Global Peace and Civic Engagement through Education* outlines the pedagogical practices necessary to inspire the next generation of peace bringers by addressing strategies to include topics from human rights and environmental sustainability to social justice and disarmament in a comprehensive method. **The High School**, 1923 **Northern Lights on Civic and Citizenship Education** Heidi Biseth, Bryony Hoskins, Lihong Huang, 2021-02-26. This open access book presents an in-depth analysis of data from ICCS. An international group of scholars critically address the state of civic and citizenship education in the four Nordic countries that participated in the IEA International Civic and Citizenship Education Study (ICCS) in 2009 and 2016. The findings are of particular relevance to educators at all levels from school education through to teacher education. Nordic countries have long traditions of democracy and their students have performed relatively well in the ICCS assessments. Nonetheless, citizenship education continues to evolve and has received increasing attention in recent educational reforms, indicating policymakers' understanding that schools play an important role in establishing democratic values among future citizens. Data from ICCS can be used to analyze, discuss, and reflect on the status of civic and citizenship education and can contribute to the discourse on the potential role of education in contributing to sustainable democracies for a common future. However, teaching citizenship and learning democracy are two different things. While young people can be taught about democracy in school, it is vital that schools work together with the wider community in which youth operate to strengthen civic understanding and values for all young people, regardless of their social and economic background.
