Vibar,1991 It is about the transformation of the manually based enrollment system into a computer based that has been perceived with the development of a software program which was designed to ease the burden of the office staff with regards to the enrollment system in use by the office With key manual procedures in the enrollment system being computerized this is made possible through the application of a computer which is an integral part of the proposed Enrollment Support System and File Management System and the integration of a program called the E SAMS Enrollment Support And Management System Enrollment procedures can now be done with just a few keystrokes instead of a handful of penstrokes E SAMS provides a brief run down of itself in the ABOUT THE PROGRAM SYSTEM Command in order that the user fully comprehends what he or she is doing A CREATE RETRIEVE DELETE and PRINT command has been provided for in order that the necessary student records can be processed or manipulated in accordance to the DISU ROTC Office Staff's requirements with regards to file maintenance Automation of the Enrollment System of Allied Health Sciences Department in University of Perpetual Help-system Janice C. Abainza,2000 *Structured Systems Development* Michael J. Powers,Paul Henry Cheney,Galen B. Crow,1990 **Common Enrollment System** Mahendranadh Manne,2011 We are all pretty famous with Enrollment systems today in which a new member's details are properly recorded and stored in a data base These records are useful for various other purposes later For example consider a University College where a new student is joined enrolled His details like first name last name address phone number and other required details are collected and stored in a data base For this we need a Front End application along with the Back End Data Base now let us think of other places where an Enrollment System is needed For example Library CD shop Gym Bank etc everywhere the details required is more or less the same Separate enrollment systems are involved with Budget Management and Maintenance Then why can't we use a Common Enrollment System for all those applications But the problem is that different Front Ends and different Back Ends are used in those applications Abstract leaf iv
