Sustainable Entrepreneurship Christina Weidinger, Franz Fischler, René Schmidpeter, 2013-08-13 Sustainable Entrepreneurship stands for a business driven concept of sustainability which focusses on increasing both social as well as business value so called Shared Value. This book shows why and how this unique concept has the potential to become the most recognised strategic management approach in our times. It aims to point out the opportunities that arise from putting sustainable entrepreneurship into practice. At the same time this book is a wake up call for all those companies and decision makers who underestimated Sustainable Entrepreneurship before or who are simply not aware of its greater dimension. Well structured chapters from different academic and business perspectives clearly outline how Sustainable Entrepreneurship contributes to solving the world's most challenging problems such as Climate Change, Finance Crisis and Political Uncertainty as well as to ensuring business success. The book provides a framework of orientation where the journey might go. What can a successful concept of SE look like? What are the key drivers for its realisation? What is the role of business in shaping the future of our society? The book also presents best practices and provides unique learnings as well as business insights from the international Sustainable Entrepreneurship Award www.seaward.org. The Sustainable Entrepreneurship Award short SEA is an award for companies today who are thinking about tomorrow by making sustainable business practices an integral part of their corporate culture.
