OECD Public Governance Reviews Global Trends in Government Innovation 2023 OECD,2023-05-15 In the face of what has increasingly been referred to as an ongoing permacrisis governments must cope with and respond to emerging threats while already grappling with longstanding issues such as climate change digital disruption and low levels of trust In this context understanding new approaches and spreading successful ideas has never been more important A Question of Power Robert Bryce,2020-03-10 An informative and highly readable Foreign Affairs breakdown of the history of electricity and the impact of global energy use on the world and the environment Global demand for power is doubling every two decades but electricity remains one of the most difficult forms of energy to supply and do so reliably Today some three billion people live in places where per capita electricity use is less than what s used by an average American refrigerator How we close the colossal gap between the electricity rich and the electricity poor will determine our success in addressing issues like women s rights inequality and climate change In A Question of Power veteran journalist Robert Bryce tells the human story of electricity the world s most important form of energy Through onsite reporting from India Iceland Lebanon Puerto Rico New York and Colorado he shows how our cities our money our very lives depend on reliable flows of electricity He highlights the factors needed for successful electrification and explains why so many people are still stuck in the dark With vivid writing and incisive analysis he powerfully debunks the notion that our energy needs can be met solely with renewables and demonstrates why if we are serious about addressing climate change nuclear energy must play a much bigger role Electricity has fueled a new epoch in the history of civilization A Question of Power explains how that happened and what it means for our future Digital Public Relations and Marketing Communication Trends in Africa Anne W. Njathi,Brandi Watkins,2024-06-07 The uptake of digital media platforms necessitates the need to understand how digital cultures of consumers and brands are unfolding Despite the increase in usage and adoption of the internet in Africa there is limited information about digital marketing trends on the continent This book is among the first to present an edited collection of chapters on digital and influencer marketing authored by many who are either from or have close ties to Africa This book showcases digital marketing trends in Africa that are burgeoning at the same speed as the uptake of technology in the continent With this in mind the contributors seek to interrogate digital marketing trends in two stages the status of digital marketing on the African continent including cases from Nigeria Egypt Uganda and Kenya and an analysis of the rise of influencer marketing including cases from Nigeria and Uganda This book will explore factors driving the increase in digital media platforms in Africa as well as an analysis of the implications of the growth in digital marketing using various theoretical and methodological underpinnings to probe trends Digital Public Relations and Marketing Communication Trends in Africa provides significant implications for marketing scholars and researchers and will be relevant to those looking to understand the opportunities and challenges ahead **Introduction to Global Social Problems** Isaac Zvi

The State of Copyright Debora Halbert,2014-02-05 This book seeks to make an intervention into the ongoing debate about the scope and intensity of global copyright laws While mapping out the primary actors in the context of globalization and the modern political economy of information ownership the argument is made that alternatives to further expansion of copyright are necessary By examining the multiple and competing interests in creating the legal regime of copyright law this books attempts to map the political economy of copyright in the information age critique the concentration of ownership that is intrinsic in the status quo and provide an assessment of the state of the contemporary global copyright landscape and its futures It draws upon the current narratives of copyright as produced by corporate government and political actors and frames these narratives as language games within a global political project to define how information and culture will be shared and exchanged in the future The text problematizes the relationship of the state to culture comments on the global flows of culture and critiques the regulatory apparatus that is in place to commodify culture and align it with the contemporary nation state In the end the possibility of non commodified and more open futures are explored The State of Copyright will be of particular interest for students and scholars of international political economy law political science anthropology sociology cultural studies library sciences and communication studies It also will appeal to a growing popular audience that has taken an interest in the issues of copyright #WorkSchoolHours Dr Ellen Joan Ford,2024-03-04 Every
