Witchcraft Academy Global Trend:

African Witchcraft and Global Asylum-Seeking Katherine Luongo,2023-04-17 This book analyzes how over the last two decades immigration regimes in three primary refugee receiving states in the Global North Canada Australia and the United Kingdom have engaged with allegations about witchcraft driven violence made by asylum seekers coming from Anglophone countries across the African continent The work intervenes at the nexus of anthropological historical legal developmental and human rights literatures to offer fresh insights into extrajudicial violence and global migration Taking witchcraft based asylum cases as its focal point it argues that the recent dramatic expansion in claims to refugee protection under the particular social group category of the 1951 UN Refugee Convention reflects immigration authorities increasing willingness to consider how legally recognizable persecution can derive from cultural practices and beliefs Reflecting critically on such cases it advances understandings of how witchcraft beliefs and practices have persisted as significant engines of violence in the contemporary world It sheds light both on the limits of legal pluralism and cultural relativism in asylum adjudication and on how social scientific expertise contributes not simply to the flow of ideas but also to the channelling of people across national cultural and epistemological boundaries The book will be essential reading for students and researchers in legal anthropology African studies human rights transnational history migration and refugee law and policy and the history and anthropology of witchcraft

Making Sense of "God"

Norman Solomon,2023-05-04 All over the world people talk about God and argue endlessly about what God said and what if anything we should do about it Do

they know what are they talking about Do they ever seriously consider what it might look like or feel like if God actually spoke to you How could you tell if someone said God spoke to them whether they were deluded bluffing or high on drugs The reflections dialogues and arguments in this book address such questions often with humor sometimes provocatively as when the author suggests the ancient gods have returned to invade the institutions of our great religions or when two spirits William and James viewing the world from afar voice their doubt as to whether the human species will ever attain the pinnacles of cooperation reason beauty and love Ancient texts from the Mayan Popol Vuh through the Bible to the Chinese classics are invoked and the discoveries of modern science from anthropology to zoology are brought into play as the reader is gently led to an appreciation of the role of religious language in modern society **World Christian Trends**

Ad30-ad2200 (hb) ,2001 **Managing People in Changing Organizations** Graeme Martin,2024-09-03 Managing People in Changing Organizations addresses the contemporary problems faced by managers in dealing with people organizations and change in a theoretically informed and practical way It does so by drawing on classic studies in management up to date research including the author s own case studies and reflective exercises This textbook approaches people management and organizational development from the perspective of practising and aspiring managers making it a valuable alternative to existing texts on organizational behaviour change management and human resource management This third edition incorporates new research and recent changes in technology including artificial intelligence work and job design and additional insights into innovation corporate governance and sustainability Built around a chapter framework that connects different themes to managerial action and practices this textbook covers a wide range of topics including managing at the individual group and organizational levels culture change managing internationally reputation management managing creativity and innovation and corporate governance corporate social responsibility and sustainability There is an increased international flavour reflected in the range of contemporary case studies and literature used throughout which explore business and management problems in the private and public sectors The content also reflects the author s recent experience of consulting and managing at board level This text will be relevant to practising and aspiring managers studying leadership people management organizational behaviour and development and change management on courses at later stage undergraduate masters doctoral and executive education levels *Our Global Environment* Anne Nadakavukaren,Jack Caravanos,2020-01-23 Our Global Environment regarded for decades as the quintessential introduction to environmental health for its authoritative coverage and cogent prose provides a richly detailed survey of current environmental issues In compelling language Anne Nadakavukaren and new coauthor Jack Caravanos describe the crucial interdependence between humans and their environment exploring the varied ways in which human activities have impacted degraded or altered the environment and the consequences to both natural ecosystems and human health and well being The eighth edition features a new chapter on climate change and the public health impacts of global warming incorporating the latest assessments of the

Intergovernmental Panel on Climate Change with regard to the physical science basis mitigation efforts and adaptation strategies Extensive revisions and updates throughout the volume reflect current topics of concern including the magnitude of global hunger and malnutrition outbreaks of the Zika virus vaping and the incidence of serious lung injury MTBE contamination of groundwater recycling of lead acid batteries in developing countries mercury exposure among artisanal gold miners and lead contaminated drinking water in Flint Michigan and other communities Readers will appreciate the addition of 16 pages of color images as well as the authors emphasis on opportunities for public participation in the decision making processes that profoundly influence health and environmental quality

The Meaning of Myth in Uncertain Times Evelien Bracke,2025-12-29 This book examines how ancient mythology forms part of the stories we tell ourselves about today s uncertain times not only in popular culture but also in sociocultural and political debates It particularly explores the ways in which classical myths shape how our modern secular societies think about the interconnected geopolitical technological and ecological issues we are facing and our potential futures Classical myths like those of Achilles Medea and Odysseus are everywhere from films and novels to social media and games But how and why are we still fascinated with them particularly now Can these strange and often painful stories from societies so radically different from our own offer us genuine insights today This expanded English edition of Evelien Bracke s award winning Dutch book *Leidraad door het labyrint* explores how and why Greek and Roman myths despite their ancient origins are surprisingly meaningful in these times of uncertainty Bracke offers a contextualization and literary analysis of classical mythology looking at both texts and visual media This allows readers to gain a better understanding of how people draw inspiration from the past in their attempt to create a better future and how these stories provide both collective and individual guidance in navigating the turbulent 21st century The Meaning of Myth in Uncertain Times is suitable for students scholars teachers and general readers interested in mythology and ancient Greek and Roman history and culture providing insights that are relevant to the challenges we all face today

Yearbook of International Organizations 2004/2005 Union of International Associations,2004 **Global Development and Remote African Villages** Steven A. Wolfgram,2006 This study explores the relationships among tropical biodiversity conservation economic development and local cultures within the context of two provinces in the Central African nation of Cameroon It examines the attitudes toward environmental conservation and economic development of three groups rural Africans urban Africans and urban Westerners that directly impact Cameroon s environmental and development efforts

World Press Review ,1983 **The Future of Religion in American Politics** Charles W. Dunn,2009-01-09 From City Hall to the White House from local courthouses to the Supreme Court religion is indisputably influential in American politics Finding the proper relationship between church and state has given rise to difficult questions and heated debates in such disparate arenas as education abortion immigration medicine warfare and sexuality Even though the United States Constitution expressly forbids a direct relationship between the two religion and

politics in America are inextricably linked Charles W Dunn's *The Future of Religion in American Politics* traces the history of religion in America's political sphere and explores the issues concerning its continuing relevance. An examination of four eras—the founding, the Civil War, the New Deal, and the modern—suggests the appropriate interaction of religion and politics in the twenty-first century. The widely recognized contributors raise many thought-provoking questions about the extent of religious influence on the U.S. government today and in the future.

Inside the Whirlwind Jason Alan Carter, 2016-12-09 How would ordinary African Christians interpret the figure and book of Job, the quintessential biblical book on suffering from contexts of extreme poverty, tropical disease, and rampant suffering? How do African Christians culturally understand issues of theodicy and the nature of evil? What role does the devil play in African Pentecostalism? How does the biblical lament empower faith and foster hope for people living with HIV/AIDS? In what way does a theology of eschatological hope inform the spirituality and prayers of ordinary African believers in the midst of suffering? *Inside the Whirlwind* offers insight on these fascinating questions. Based upon the perspectives of Fang Christians in Spanish speaking Equatorial Guinea, Central Africa, the thematic and theological reflections on evil, suffering, and hope emerging from sermons and Bible studies on the book of Job offer a remarkable window to view the main theological issues shaping grassroots African Christianity in the twenty-first century.

The Wall Street Journal, 2006 **Health Science Books, 1876-1982**, 1982 *Media Asia*, 2005 *World Civilizations* Peter N. Stearns, 1999-10 The primary goal of *World Civilizations: The Global Experience* Third Edition is to present a truly global history one that both discusses the development of the world's leading civilizations and also emphasizes the major stages in the interactions among different peoples and societies. The book examines all the world's civilizations including those in the Western tradition but also those civilizations sometimes neglected in world history texts for example the nomadic societies of Asia, Latin America and the nations and states of the Pacific Rim. *World Civilizations* balances this discussion of independent developments in all the world's major civilizations with comparative analysis of the results of international contact.
