

Bookstagram Favorite International Bestseller

Pierre Roy,Estelle Pellegrin-Boucher

Bookstagram Favorite International Bestseller:

Reading Bestsellers Danielle Fuller, DeNel Rehberg Sedo, 2023-04-27 Readers are essential agents in the production of bestsellers but bestsellers are not essential to readers leisure pursuits. The starting point in this Element is readers opinions about and their uses of bestselling fiction in English. Readers relationships with bestsellers bring into view their practices of book selection and their navigation of book recommendation culture. Based on three years of original research 2019-2021 including a quantitative survey with readers, interviews with social media influencers and qualitative work with international Gen Z readers in a private Instagram chat space, the authors highlight three core actions contemporary multimodal readers make choosing, connecting and responding in a transmedia era where on and offline media practices co-exist. The contemporary multimodal reader or the MMR3 they argue illustrates the pervasiveness of recommendation culture, reliance on trusted others and an ethic of responsiveness.

The Routledge International Handbook of Valuation and Society

Anne Krüger, Thorsten Peetz, Hilmar Schaefer, 2024-10-15 The Routledge International Handbook of Valuation and Society builds on the growing research interest in practices of valuation throughout contemporary society, providing an up-to-date overview of the different facets of research in the sociology of valuation. The handbook is divided into five major sections with attention to the treatment of valuation in major areas of sociological theory as well as its key concepts, discourses and approaches. Part I Theoretical perspectives, Part II Central valuation practices in societal spheres, Part III Cross-cutting valuation practices, Part IV Valuation and societal change, Part V Reflections. Together the chapters in this book characterize distinctive practices of valuation across different societal spheres such as education and science, arts and culture, economic life, the environment or digital culture and social media. They also examine the role of valuation in contemporary society and consider the ways it effects social change. This seminal handbook aims at taking stock of the development of the study of valuation with a selection of topics that are important for understanding core perspectives and developments as well as anticipating its future orientation. It will appeal to scholars across the social sciences with interest in the ubiquity of the valuation practices and its effects on social life.

Business Model Innovation in Creative and Cultural Industries

Pierre Roy, Estelle Pellegrin-Boucher, 2024-10-31 Business model innovation occurs when an organization discovers a new way of creating revenues or profits via its products or services. This book examines the concept as it applies across the creative and cultural industries in practice. This book examines market, social and political environments which impact creative and cultural organizations' business models such as sustainability, new forms of competition, digitalization and data management, emerging technologies like AI and shifting social trends and lifestyles. This book not only analyses these influences but also presents best practices, key success factors and compelling case studies. Employing a case study format, a range of creative or cultural sectors are analysed including fashion, architecture and gaming. The result is a book which delivers value for researchers, advanced students and reflective practitioners involved in the creative economy around the world.
