Picture Book Toddlers Primer:

Children's Catalog of Thirty-five Hundred Books H.W. Wilson Company, Corinne Bacon, 1917 **The Early Reader in Children's Literature and Culture** Jennifer Miskec, Annette Wannamaker, 2015-12-22 This is the first volume to consider the popular literary category of Early Readers books written and designed for children who are just beginning to read independently. It argues that Early Readers deserve more scholarly attention and careful thought because they are for many younger readers their first opportunity to engage with a work of literature on their own to feel a sense of mastery over a text and to experience pleasure from the act of reading independently. Using interdisciplinary approaches that draw upon and synthesize research being done in education, child psychology, sociology, cultural studies, and children's literature, the volume visits Early Readers from a variety of angles: as teaching tools, as cultural artifacts that shape cultural and individual subjectivity, as mass-produced products sold to a niche market of parents, educators, and young children, and as aesthetic objects, works of literature and art with specific conventions. Examining the reasons such books are so popular with young readers as well as the reasons that some adults challenge and censor them, the volume considers the ways Early Readers contribute to the construction of younger children as readers, thinkers, consumers, and as gendered, raced, classed subjects. It also addresses children's texts that have been translated and sold around the globe, examining them as part of an increasingly transnational children's media culture that may add to or supplant regional, ethnic, and national children's literatures and cultures. While this collection focuses mostly on books written in English and often aimed at children living in the US, it is important to acknowledge that these Early Readers are a major US cultural export influencing the reading habits and development of children across the globe. *Graded List of Books for Children*, 1922 An annotated list of approximately 1,000 standard children's books with publisher and price arranged alphabetically by author in three lists according to grades 1, 3, 4, 6, 7, 9 with title and subject indexes. *Children's Catalog* H.W. Wilson Company, 1917 The 1st ed includes an index to v. 28, 36 of *St. Nicholas*. **Children's Catalog of One Thousand Books** H.W. Wilson Company, 1916 **Children's Books for First Purchase** Wisconsin Free Library Commission, 1915 *First Selection of Five Hundred Children's Books*, 1913

Great Authors of Children's Books Britannica Educational Publishing, 2014-01-01 Few stories have the power to stay with us the way the tales we hear in childhood do. Great children's book authors have at their disposal countless techniques to channel young imaginations and appeal directly to their audience's tender sensibilities. They craft colorful characters whose circumstances and actions resonate with readers in a way that carries through well into adulthood. The creators of some of the most whimsical, witty, thought-provoking, and powerful children's books of all time, including Lewis Carroll, Dr. Seuss, Beatrix Potter, Maurice Sendak, and Laura Ingalls Wilder among many others, are presented in this exciting volume.
