## **Teaching Social**

**Studies in the Early Childhood Classroom** Jean Kirshner, Jenny Pettit, 2025-01-23 This textbook develops early childhood teachers' capacity to effectively instruct democratic principles to our youngest citizens. As our world experiences political polarization, pandemics, heightened racial tension, and the evolving awareness of gender and LGBTQ issues, this textbook addresses those topics as they show up in the early childhood classroom, offering research informed practical guidance for pre and in-service teachers. The book is organized around 12 themes, 10 of which are based on the National Council for Social Studies (NCSS) themes in addition to the anti-racist, anti-bias curriculum and gender-expansive principals from the National Association for the Education of Young Children (NAEYC) closely following social studies content standards from across the United States. The themes covered are culture and cultural diversity, history, geography, identity, gender roles, and gender identity, institutions, power and authority, economics, science and technology, global citizenship, and civic ideals and practice. Throughout each chapter, you will come to know 5 early childhood classrooms and including profiles of the teachers, students, and communities. These five spaces represent a variety of early childhood teachers, different age groups of students, and diverse communities, and show how the lesson learned in each chapter can be applied in classroom settings. This book provides developmentally appropriate ways to teach relevant and current social studies content to our very youngest learners, emphasizing the fact that these very children will grow to be the next stewards of our global community.

## ***School with a***

***Big Why*** Peter T. Denton, 2024-12-09 These reflections on school and schooling come from the crucible of practice in the real world of K-12 education. Written by a school leader for his school, these essays have a timeless and universal appeal for parents, grandparents, educators, school leaders, and all who care about the formation of the next generation. Chip Denton, founding head of Trinity School in Durham, North Carolina, applies multiple lenses—theological, pedagogical, and practical—to reflect on the ways a school's mission drives a multitude of mindsets, traditions, and habits in a community of learners. Schools are places where words matter, and in this volume you can see a school leader working to match word and deed in the life of a school. Collected from Denton's regular Head Lines letters to the Trinity School community over the last decade 2015-2024.

these reflections engage the complexities and tensions of excellence in education The letters can be read individually but together they tell how one school's story illustrates Nietzsche's saying that one who has a why can manage with any how

**Media Messages** Linda Holtzman, Leon Sharpe, 2014-03-15 The new edition of this widely acclaimed book reveals how the popular media contributes to widespread myths and misunderstanding about cultural diversity. Along with updated media examples, expanded theories and analysis, this edition explores even more deeply the coverage of race in two chapters. It discusses more broadly how men and boys are depicted in the media and socialized and how class issues have become even more visible during the Great Recession of the 21st century and the Occupy movements.

### **Creating Carmen Miranda**

Kathryn Bishop-Sanchez, 2021-04-30 Carmen Miranda got knocked down and kept going. Filming an appearance on The Jimmy Durante Show on August 4, 1955, the ambassador of samba suddenly took a knee during a dance number, clearly in distress. Durante covered without missing a beat and Miranda was back on her feet in a matter of moments to continue with what she did best: performing. By the next morning, she was dead from heart failure at age 46. This final performance in many ways exemplified the power of Carmen Miranda. The actress, singer, and dancer pursued a relentless mission to demonstrate the provocative theatrical force of her cultural roots in Brazil. Armed with bare midriff dresses, platform shoes, and her iconic fruit basket headdresses, Miranda stole the show in films like *That Night in Rio* and *The Gang's All Here*. For American film audiences, her life was an example of the exoticism of a mysterious, sensual South America. For Brazilian and Latin American audiences, she was an icon. For the gay community, she became a work of art personified and a symbol of courage and charisma. In *Creating Carmen Miranda*, Kathryn Bishop Sanchez takes the reader through the myriad methods Miranda consciously used to shape her performance of race, gender, and camp culture all to further her journey down the road to becoming a legend.
