**BioWare's Mass Effect** Jerome Winter, 2022-11-24 The videogame series Mass Effect is a remarkable rarity not only for being an original science fictional franchise of recent vintage that has risen to such prominent commercial and critical success in popular culture but also for pushing the canonical boundaries of how science fiction as a genre will be experienced and understood in the future. This book analyzes the significance of the game for an understanding of the evolving SF genre and articulates an explanatory framework to limn its landmark reception in videogame history. This book both synthesizes the burgeoning body of scholarship on Mass Effect for a readership unfamiliar with either the game or the critical conversation on its salient importance while simultaneously for readers already invested in the science fiction and videogame scholarship mounting an extended inquiry as to why Mass Effect has served as such a representative milestone in videogame and genre history. The book should appeal to veteran science fiction and videogame scholars and students as well as a wide variety of fans consumers gamers and general readers.

*Fear of Seeing* Mingwei Song, 2023-10-03 Winner 2023 SFRA Book Award Science Fiction Research Association. A new wave of cutting edge risk taking science fiction has energized twenty first century Chinese literature. These works capture the anticipation and anxieties of China's new era speaking to a future filled with uncertainties. Deeply entangled with the politics and culture of a changing China, contemporary science fiction has also attracted a growing global readership. *Fear of Seeing* traces the new wave's origin and development over the past three decades, exploring the core concerns and literary strategies that make it so distinctive and vital. Mingwei Song argues that recent Chinese science fiction is united by a capacity to illuminate what had been invisible, what society had chosen not to see, what conventional literature had failed to represent. Its poetics of the invisible opens up new literary possibilities and inspires new ways of telling stories about China and the world. Reading the works of major writers such as Liu Cixin and Han Song, as well as lesser known figures, Song explores how science fiction has spurred larger changes in contemporary literature and culture. He analyzes key topics: variations of utopia and dystopia, cyborgs and the posthuman, and nonbinary perspectives on gender and genre among many more. A compelling and authoritative account of the politics and poetics of contemporary Chinese science fiction, *Fear of Seeing* is an important book for all readers interested in the genre's significance for twenty first century literature.

*The Art of Studio Gainax* Dani Cavallaro, 2008-11-11 Formed by a small group of university students in the early 1980s, Studio Gainax is now one of the most adventurous and widely esteemed anime companies on the scene. And it is fascinating for its unique approach to animation. Formal experimentation, genre straddling, self reflexivity, unpredictable plot twists, a gourmet palate for stylishness, proverbially controversial endings, and a singularly iconoclastic worldview are some of the hallmarks. This documentation of the studio's achievements provides a critical overview of both the company and its films, in depth examinations of particular titles that best represent the company's overall work, including television series such as *Nadia: The Secret of Blue Water* and *Neon Genesis Evangelion*, and feature films such as *Royal Space Force: The Wings of Honneamise* and *Gunbuster* vs *Diebuster*. Each chapter highlights the contribution made by a specific production to the company's progress.
