The surprising definition of discipline. The benefits of proactive parenting. Methods to become proactive parenting. You will learn how to discipline your child who is between the ages of one to three years of age. These are difficult times because toddlers are just beginning to flex their independent muscles. When children are this age, they will test the parental authority to see how far they can go. To a toddler, the world is huge, and they long to explore and experience it. They do not have the intelligence yet to discern what could be a danger to them. This is where parents must set a basic boundary and put forth rules that will help to protect and guide their toddler through these often turbulent years.
