The Noah Myth in Twenty-first-century Cli-fi Novels Helen E. Mundler, 2022 Breaks new ground by both analyzing the literary qualities of four recent rewritings of the Noah myth and contextualizing their concern with climate change within the wider crises of the Anthropocene With the rise of concern about global warming in recent years climate change fiction or cli fi has become increasingly important both as a publishing phenomenon and as an area of academic study and research Flood narratives have become a subsection of cli fi in their own right This book proposes new readings of four recent rewritings of the Noah myth Odds Against Tomorrow by Nathaniel Rich Margaret Atwood's Maddaddam trilogy When the Floods Came by Clare Morrall and The Flood by Maggie Gee Helen E Mundler's book takes into account the wealth of criticism that has appeared on these texts in recent years acknowledging important contributions from critics including Adam Trexler Adeline Johns Putra and Astrid Bracke However her book's strength is that it takes a new approach going beyond the topicality of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts While the importance of climate change is beyond debate this book takes a more balanced approach that places it within a wider context of the multiple crises of the Anthropocene y of the texts and treating them not just as ideological statements but giving them their due as literary artifacts

Awake in the Floating City Susanna Kwan, 2025-05-13 A MOST ANTICIPATED BOOK FROM PEOPLE MAGAZINE An utterly transporting debut novel about the unexpected relationship between an artist and the 130 year old woman she cares for two of the last people living in a flooded San Francisco of the future the home neither is ready to leave An astonishing work of art This is the

kind of book that changes you that leaves you seeing more vividly and living more fully in its wake Rachel Khong author of *Real Americans* Bo knows she should go Years of rain have drowned the city and almost everyone else has fled Her mother was carried away in a storm surge and ever since Bo has been alone She is stalled an artist unable to make art a daughter unable to give up the hope that her mother may still be alive Half heartedly she allows her cousin to plan for her escape but as the departure day approaches she finds a note slipped under her door from Mia an elderly woman who lives in her building and wants to hire Bo to be her caregiver Suddenly Bo has a reason to stay Mia can be prickly and yet still she and Bo forge a connection deeper than any Bo has had with a client Mia shares stories of her life that pull Bo back toward art toward the practice she thought she'd abandoned Listening to Mia allowing her memories to become entangled with Bo's own she's struck by how much history will be lost as the city gives way to water Then Mia's health turns and Bo determines to honor their disappearing world and this woman who's brought her back to it a project that teaches her the lessons that matter most how to care how to be present how to commemorate a life and a place soon to be lost forever

Fire and Snow Marc DiPaolo, 2018-07-11 Fellow Inklings J R R Tolkien and C S Lewis may have belonged to different branches of Christianity but they both made use of a faith-based environmentalist ethic to counter the mid-twentieth century's triple threats of fascism utilitarianism and industrial capitalism In *Fire and Snow* Marc DiPaolo explores how the apocalyptic fantasy tropes and Christian environmental ethics of the Middle-earth and Narnia sagas have been adapted by a variety of recent writers and filmmakers of climate fiction a growing literary and cinematic genre that grapples with the real-world concerns of climate change endless wars and fascism as well as the role religion plays in easing or escalating these apocalyptic-level crises Among the many other well-known climate-fiction narratives examined in these pages are *Game of Thrones* *The Hunger Games* *The Handmaid's Tale* *Mad Max* and *Doctor Who* Although the authors of these works stake out ideological territory that differs from Tolkien's and Lewis's DiPaolo argues that they nevertheless mirror their predecessors' ecological concerns The Christians Jews atheists and agnostics who penned these works agree that we all need to put aside our cultural differences and transcend our personal socioeconomic circumstances to work together to save the environment Taken together these works of climate fiction model various ways in which a deep ecological solidarity might be achieved across a broad ideological and cultural spectrum This book is freely available in an open access edition thanks to Knowledge Unlatched an initiative that provides libraries and institutions with a centralized platform to support OA collections and from leading publishing houses and OA initiatives Learn more at the Knowledge Unlatched website at <https://www.knowledgeunlatched.org> and access the book online at the SUNY Open Access Repository at <http://hdl.handle.net/20.500.12648/7137>
