Pic 921: Certain people didn't like Biden, Trump, Obama, Bush, the Clintons, Reagan and others. But there was one president that everybody hated: Nixon. In a book called *The Book of Lists*, published in the 1970s, Nixon ranked as the most hated person, second on the list was Hitler, but it was not always so, and he might have gotten a worse wrap than he deserves. Youtube: *Nixon Checks Speech* to see the guy in action and decide for yourself. But one thing is certain-Nixon's comeback was perhaps the greatest in American political history. He lost the 1960 election to Kennedy, then he lost when he ran for governor of California. His career should have been over. But he never let up, and now, at the Apollo 11 landing site in the Sea of Tranquility on the Moon, there is a plaque (Wikipedia: *Lunar Plaque*) that reads, "Here men from the Planet Earth first set foot upon the Moon, July, 1969 A.D. We came in peace for all mankind." The plaque is signed Neil Armstrong, Buzz Aldrin and Michael Collins. And underneath their names, there is another signature, that of President of the United States Richard Nixon. No other president's name is on the Moon. Also Youtube: *Buzz Aldrin Punches Guy* to see a person who didn't believe the Moon landing happened confront the second man to walk on the Moon. But even more importantly, Youtube: *Carl Sagan Pale Blue Dot* to see what the meaning of this image really is. Do you believe American sent twelve men to walk on the Moon between 1969-1972?

ix. No, I think it was a conspiracy and that the images are fake

ix. I do.
