From one of the most prominent voices in the trauma conversation comes a groundbreaking new way to heal on a personal and a collective level showing us that we don't have to carry our emotional burdens alone I love this book Bessel van der Kolk author of *The Body Keeps the Score* In a time when so many of us are being trained in cynicism this book stands in necessary defiance Cole Arthur Riley author of *Black Liturgies* and *This Here Flesh* This Random House Book Club edition includes a discussion guide at the back of the book *What It Takes to Heal* asserts that the principles of embodiment the recognition of our body's sensations and habits and the beliefs that inform them are critical to lasting healing and change Hemphill an expert embodiment practitioner therapist and activist who has partnered with Bren Brown Tarana Burke and Esther Perel among others demonstrates a future in which healing is done in community Hemphill weaves together stories from their own experience as a trauma survivor with clinical accounts and lessons learned from their time as a social movement architect They ask What would it do to movements to our society and culture to have the principles of healing at the very center And what does it do to have healing at the center of every structure and everything we create In this life affirming framework for the way forward Hemphill shows us how to heal our bodies minds and souls to develop the interpersonal skills necessary to break down the doors of disconnection and take the necessary risks to reshape our world toward justice **The Trauma**

Survivor's Guide to Healing Travis Jessop, 2020-05-14 I understand the magnitude of damage left behind in the aftermath of trauma Not only through my years of coaching trauma survivors but because I too am a survivor of unimaginable trauma A few years ago I watched my 3 year old son die in an auto accident just days after losing my Dad to cancer Shortly after losing my son I found myself homeless and beyond broke I desperately needed help from somebody who not only understood trauma but had survived and HEALED after experiencing trauma I needed help and I didn't know where else to turn So I began weekly therapy sessions After thousands of dollars and many years of meeting with different counselors I was diagnosed with PTSD The diagnosis was great at least now I had a name for the beast in my head but I was still not feeling the peace I was desperately seeking So I began my quest to heal from PTSD on my own so I could get control over my mind and emotions and create a new life for myself my life after trauma I know from personal experience that trauma can destroy everything you

value It can leave you broke mentally financially and spiritually It destroys friendships and relationships The very things you once placed so much value on no longer matter After years of studying trauma and PTSD I began to coach other trauma survivors and I discovered that we all seem to have a common theme in the way our brains and bodies react when they try to process the trauma and damage that has taken place I made a promise to myself that when I had healed from trauma that I would help others heal from their traumas so I created a simple step by step guide in the pages of this short book called The Trauma Survivor's Guide To Healing
