How long should it take before you stop having to force it and start doing it automatically? Although people like to think that they are in control, much of human behavior occurs without any decision making or conscious thought. Drawing on hundreds of fascinating studies, psychologist Jeremy Dean busts the myths to finally explain why seemingly easy habits like eating an apple a day can be surprisingly difficult to form and how to take charge of your brain's natural autopilot to make any change stick. *Witty and intriguing*, *Making Habits, Breaking Habits* shows how behavior is more than just a product of what you think.
