Dec 29, 2013 10:09 PM

**Ehsan Pandey**  
42 points since  
Jan 4, 2014

Hi All,

I am facing an issue in GNS3 while emulating IPS. I am able to access the CDR as well as IDB but unable to enable any signature which is disable by default. Whenever I am trying to enable the signature it stuck on a window displaying "Communicating with Sensor". It has been through from some threads which suggested that it will take some time due to slow emulation of GNS3. I tried all the possibility from recycle but unable to resolve this issue...

Can any one suggest any solution.

Regards,

Ehsan Pandey

Re: IPS in GNS3

**Pintelle**

Hi Ehsan,

I am afraid you will have to provide more information in order for people to be able to assist with your question. For example what are the current Qemu options set? Which version of GNS3? Could you please post the relevant configuration (I assumeing that you have already added the interface from the interface list, such as IDB Security Monitor, to the allowed ports list, otherwise they will not be able to communicate with the switch.)
