Code Procdures Civiles Dexecution 2016:

Redefining Codification Dirk Heirbaut, 2024-12-10 More than half of the world's population lives under law codes. Yet defining the concept of codification remains elusive. Rather than delving into abstract theories, this book provides a rich and contextual comparative legal history of codes in France, Germany, the Netherlands, and Belgium from the late eighteenth century to the present. The author starts by examining the evolution of French, German, Dutch, and Belgian codes in their political and comparative context, thus challenging deeply rooted national narratives. He covers the well-studied civil codes and the often overlooked commercial and procedural codes and drafts that failed to become law. Against this backdrop, the book embarks on a comprehensive analysis of the factors contributing to the success or failure of codification efforts. Employing an innovative method of comparative legal history, *Redefining Codification* explores the key players and objectives behind codification, revealing that traditional notions of codification are far removed from reality. Following the deconstruction of some universal truths about codifications, this volume offers fresh insights into the behind-the-scenes of the lawmaking machinery and an empirically based definition of codification.

Introduction to Investor-State Arbitration Yves Derains, Josefa Sicard-Mirabal, 2018-10-17 Today, thousands of investors act globally in markets providing services, technology, or capital in countries all around the world. This activity can be peacefully accomplished when both the investor and the host State know that the disputes will be resolved under the aegis of the investor-State arbitration regime, wherein an investor is provided with a direct right of action against a State, most commonly stemming from a bilateral or multilateral investment treaty. This book approaches the substantive and sometimes difficult concepts of investor-State arbitration in a clear and concise explanatory fashion. In the course of acquainting the reader with the basic legal concepts and policies of the regime, the authors address such issues as the following: consent to jurisdiction, State responsibility, possible conflict of interests, mechanisms for reviewing an award, damages and costs, and enforcement. The book examines a number of arbitration procedures arising from various perspectives, with differing underlying assumptions, while highlighting important cases. Given that investor-State arbitration is now under the public watch and facing many challenges, this remarkably clear and concise overview of the regime will prove to be of great value to in-house counsel and other practitioners, as well as to government policymakers and students.

The New French Law of Contract Solène Rowan, 2022-08-01 After being almost untouched for over 200 years, the contract law section of the French Civil Code was overhauled in 2016 and 2018. *The New French Law of Contract* describes, explains, and analyses the new general principles of contract law in the reformed Code in a concise and stimulating way. The areas covered include contract formation, validity, the interpretation and supplementation of terms, the regulation of unfair terms, privity of contract, change of circumstances, breach of contract, and remedies. The book examines the ways in which the new articles affirm or depart from the provisions of the 1804 Code and pre-reform case law, giving special attention to changes that have proved to be controversial and the debates that surround them. It also considers

the various influences that have shaped the reforms in particular those from international contract law instruments such as the Principle of European Contract Law and the UNIDROIT Principles Written from the standpoint of a common lawyer the book is designed to help readers from a common law background to navigate the innovations in the reforms and the new French law of contract that emerges It is essential reading for students researchers practitioners law makers and judges with an interest in comparative law
