Cosmic Voyage Courtney Brown,1996 Through Scientific Remote Viewing the author reveals that at least two alien civilizations have been and continue to be intimately involved with Earth humans a Martian race who still struggle to survive on their nearly dead planet and the Greys a highly advanced humanoid people *Cosmic Voyage* Courtney Brown,1998-05-01 At long last comes the moment that humanity has been waiting for irrefutable evidence of extraterrestrial life By using Scientific Remote Viewing a highly classified paranormal process developed by the U S military Courtney Brown puts his career on the line to tell the shocking true story of his discoveries Not only does this book describe full details of contact made with alien civilizations whose destinies reflect our own but it also offers a vital inspirational message for the future of mankind *Life in the Universe* James Newsome Pierce,2008 This book explores the science of extraterrestrial life with a particular emphasis on the existence of intelligent alien civilizations It introduces the reader to the basic chemistry associated with life on Earth and describes the planetary and stellar environments that allow us to exist It also discusses the likelihood of alien life developing at other locations in our galaxy along with the possibility that we will meet or communicate with them This book is suitable for use as a text in an introductory Life in the Universe course **REVIEWS Blog Critics Magazine** written by Regis Schilken <http://blogcritics.org/archives/2009/03/16/082715.php> **Hope Restored: An Autobiography by Paul Hellyer** Paul Hellyer,2018-09-07 This powerful book argues that the human species is at a tipping point when it is forced to choose between a New World Order fascist government committed to rapid depopulation or a world of peace and justice Hellyer demonstrates that God is alive well and everywhere and that humanity's choice is between the Dark and the Light To follow the Light means giving up atomic weapons replacing the oil economy with clean zero point energy developed by Americans in the 1960s having governments create 34 percent of all new money for public purposes rather than borrowing it from the 62 elite banking families a reconciliation of the two main branches of Islam and a just settlement of the Israeli Palestinian dispute to bring peace to the Middle East Finally it will be necessary for all countries races and faiths especially young people to forgive past atrocities and work together in common purpose to save the heritage they have in common **Why People Believe Weird Things** Michael Shermer,Stephen Jay Gould,2002-09-01 This sparkling book romps over the range of science and anti science Jared Diamond author of *Guns Germs and Steel* Revised and Expanded Edition In this age of supposed scientific enlightenment many people still believe in mind reading past life regression theory New Age hokum and alien abduction A no holds barred assault on popular superstitions and prejudices with more than 80 000 copies in print *Why People Believe Weird Things* debunks these nonsensical claims and explores the very human reasons people find otherworldly phenomena conspiracy theories and cults so appealing In an entirely new chapter *Why Smart People Believe in Weird Things* Michael Shermer takes on science luminaries like physicist Frank Tipler and others who hide their spiritual beliefs behind the trappings of science Shermer science historian and true crusader also

reveals the more dangerous side of such illogical thinking including Holocaust denial the recovered memory movement the satanic ritual abuse scare and other modern crazes Why People Believe Strange Things is an eye opening resource for the most gullible among us and those who want to protect them *The Borderlands of Science* Michael Shermer, 2001-05-17 As author of the bestselling Why People Believe Weird Things and How We Believe and Editor in Chief of Skeptic magazine Michael Shermer has emerged as the nation's number one scourge of superstition and bad science Now in *The Borderlands of Science* he takes us to the place where real science such as the big bang theory borderland science superstring theory and just plain nonsense Big Foot collide with one another Shermer argues that science is the best lens through which to view the world but he recognizes that it's often difficult for most of us to tell where valid science leaves off and borderland science begins To help us Shermer looks at a range of topics that put the boundary line in high relief For instance he discusses the many theories of everything that try to reduce the complexity of the world to a single principle and shows how most fall into the category of pseudoscience He examines the work of Darwin and Freud explaining why one is among the great scientists in history while the other has become nothing more than a historical curiosity He also shows how Carl Sagan's life exemplified the struggle we all face to find a balance between being open minded enough to recognize radical new ideas but not so open minded that our brains fall out And finally he reveals how scientists themselves can be led astray as seen in the infamous Piltdown Hoax Michael Shermer's enlightening volume will be a valuable aid to anyone bewildered by the many scientific theories swirling about It will help us stay grounded in common sense as we try to evaluate everything from SETI and acupuncture to hypnosis and cloning [Extra-Planetary Experiences](#) Thomas James Streicher, 2012-03-19 Deep insights into human consciousness revealed by accounts of travel to other planets moons and stars Includes interviews with 7 people who have had extra planetary experiences including astronaut Edgar Mitchell Norma Milanovich and Ingo Swann Reveals the positive effects of these events on the interviewees lives from cosmic consciousness and loss of fear of death to enhanced spiritual insights Contextualizes these accounts with 19th and 20th century reports as well as alien human encounters in ancient Sumerian Vedic Egyptian Tibetan and biblical records Since prehistoric times all cultures report encounters with strange beings and crafts from the sky as well as stories of extra planetary experiences that is travel to other planets moons and stars In the case of modern accounts these benevolent alien human interactions bear striking resemblance to one another even among people with no knowledge of other alien human claims And all experiences marked a spiritual turning point in the person's life providing a loss of the fear of death enhanced spiritual insights a connection to cosmic consciousness or increased motivation to be of service to humanity Exploring fresh dimensions of ET contact and extra planetary experience XPE using Harvard professor and researcher John Mack's witnessing approach to paranormal incidents Thomas Streicher interviews 7 renowned people who have experienced XPE including astronaut Edgar Mitchell Norma Milanovich and Stanford tested remote viewer Ingo Swann and shares the positive spiritual effects of XPE on their lives

Placing their experiences in the context of historical accounts of alien human encounters from ancient Sumerian Vedic Egyptian Tibetan Hopi Dogon and biblical records as well as 19th and 20th century testimonies from Orfeo Angelucci Billy Meier Elizabeth Klarer and others the author reveals the similarities of these experiences with those of his interviewees Streicher shows these experiences are not contrived hallucinations but genuine transformative spiritual awakenings akin to near death and out of body experiences      *Cosmic Explorers* Courtney Brown,1999 A followup to *Cosmic Voyage* introduces readers to the aliens who have been watching humans for a long time and who may pose a threat to the planet Original
