Cosmic Father Rollan McCleary,2009 This book addresses arguably the major blind spot in contemporary spirituality and historic Christianity God is scarcely experienced or described as personal unless as Jesus the divine Son devotion to whom can often finish by obscuring rather than revealing God as Creator and Father Western mysticism has mostly sought Godhead beyond God while modern theology wary of images often avoids the word Father But what if knowledge of the Creator and what was once called Fellowship with the Father is the main point of all religion Some unexpected experiences and realizations cause the author to re examine the whole Christian and mystical tradition to arrive at some surprising and prophetic perspectives for our times

*Philosophy, Cosmology, and Religion* Rudolf Steiner,1984 This cycle focuses on exercises to attain higher spiritual development Steiner gives a description of philosophy based on Imagination cosmology based on Inspiration and religion based on Intuition This is followed by a rich account of the stages of sleep and the period between death and rebirth especially the role of Christ after death as revealed to spiritual cognition

**The Heavenly Sophia and the Being Anthroposophia** Sergei O. Prokofieff,2006 Based on the author s experience of the suprasensory being behind spiritual science Anthroposophy this volume is the culmination of Sergei Prokofieff s twenty five years of work on Rudolf Steiner s spiritual impulse He shows that the being Anthroposophia is not merely a poetic image or an abstract concept but an actual spiritual entity who works in the higher worlds to benefit earthly evolution and bring to humanity the new revelation of the heavenly Sophia the divine wisdom In the first part of the book Prokofieff describes the path that led him to experience the being Anthroposophia a path that is clearly outlined so that it can be followed by the reader as well In the second part beginning with Steiner s relatively few statements on the subject the author considers the position of the living Anthroposophia in the cosmic hierarchy specifically her relationship to Christ to the heavenly Sophia and the to Archangel Michael Finally available in paperback this work will be of special interest to all those who have a close connection to Rudolf Steiner s Anthroposophy

**Necessary Wisdom** Charles M. Johnston,1991

**Astronomy and Spiritual Science** Elisabeth Vreede,2007-12 Rudolf Steiner was in fact not merely a phenomenally

educated and articulate philosopher but also a Man of Destiny By comparison not only with his contemporaries but with the general history of the Western mind his stature is almost too excessive to be borne Owen Barfield The New Essential Steiner is an illuminating completely new introduction to the philosophy and essential writings of Rudolf Steiner introduced and edited by Robert McDermott who also edited the now classic Essential Steiner This new volume offers selections from a wide variety of Steiner's published works presenting a broad accessible overview of Anthroposophy In his introduction McDermott recounts Steiner's life and work from his childhood and education to his work as a natural scientist philosopher scholar educator artist interpreter of culture and seer He places Steiner in relation to major traditions of thought and explores the genesis and development of Anthroposophy Although Rudolf Steiner is considered by many to be the greatest spiritual seer and philosophical thinker of the twentieth century and is credited with major cultural contributions such as the worldwide Waldorf school movement and the ever growing biodynamic agricultural movement he nevertheless remains relatively unknown to both academics and the public The purpose of this volume is to redress that situation by introducing Steiner's work to a broader audience and making his name more universally recognized Includes selections from Steiner's writings which are grouped into chapters that demonstrate the breadth of his thinking and spiritual accomplishments The New Essential Steiner is an invaluable compendium and introduction to the works that form the foundation of Anthroposophy

**Religion and Folk Cosmology** el-Sayed el-Aswad,2002-12-30 This study refutes both the Western dominant paradigm of modernity and the Eurocentric stereotype of traditional Muslim culture and demonstrates that rural Egyptians have their own paradigm of secular modernism that does not negate religious or sacred orientations Islam is associated with ongoing attempts at religious purification and cultural unification and is inimical to cultural homogenization encouraged by Western globalization Provides a holistic interpretation of the interplay between religion and folk cosmology challenging the stereotypes that relegate traditional people to backwardness and a peripheral space or locality Within this Muslim society the global local nexus is one of ongoing creative integration not separation The cosmology can best be understood in the context of its totality encompassing both visible and invisible zones Muslims articulate personal or private order as well as social order within their cosmology This cosmological view endowing people with a unique imaginative sense of engagement with a supraphenomenal reality accentuates the belief that divine cosmic invisible higher power surpasses any other power Such a belief represents an inexhaustible source of spiritual and emotional empowerment that may be politically mobilized in certain critical moments and depicted as a religious holy struggle or jihad     [The Science of Religion, Spirituality, and Existentialism](#) Kenneth E. *Religion and the Early Modern State* James D. Tracy, Marguerite Ragnow, 2004-10-25 How did state power impinge on the religion of the ordinary person This perennial issue has been sharpened as historians uncover the process of confessionalization or acculturation by which officials of state and church collaborated in ambitious programs of Protestant or Catholic reform intended to change the religious consciousness and the behaviour of ordinary men and women In the belief that specialists in one area of the globe can learn from the questions posed by colleagues working in the same period in other regions this volume sets the topic in a wider framework Thirteen essays grouped in themes affording parallel views of England and Europe Tsarist Russia and Ming China show a spectrum of possibilities for what early modern governments tried to achieve by regulating religious life and for how religious communities evolved in new directions either in keeping with or in spite of official injunctions    **The Essene Jesus** Edmond Bordeaux Székely, 1968    **Science of Love with Key to Immortality** Ida Mingle, 1926    **Fisherman's Guide** Robert Campbell, 1985    **Vital Christianity** Newton N.
