**Job Crafting** Benjamin Laker, Lebene Soga, Yemisi Bolade-Ogunfodun, Adeyinka Adewale, 2024-04-23 A practical and timely guide that shows employees how to craft the jobs they want and managers how to shape their organizations in ways that are conducive to such job crafting. Job Crafting is a rigorous modern take on job redesign that empowers workers to transform the jobs they have into the ones they want. Through the process of job crafting a worker proactively alters their job to emphasize tasks that better align with their skills or that allow opportunities to learn new skills with the help of executives who are willing to transform their organizations into supportive work environments. Offering practical guidance grounded in empirical evidence British researcher Benjamin Laker and coauthors Lebene Soga, Yemisi Bolade Ogunfodun and Adeyinka Adewale describe the steps necessary for businesses and organizations to facilitate that support. Rather than passively receive job titles and role descriptions job crafters harness meaning at work through three primary avenues exercising greater control over tasks determining the way tasks are perceived and shaping social context. Based on data from a previous study in which structured interviews were conducted with one thousand business leaders and two thousand of their workers around the world the authors clear four step framework shows managers how to maximize staff engagement and productivity by building the systems structures and processes that empower workers to job craft. As new principles of stewardship, authenticity and empowerment redefine the old command and control leadership approach and generations Y

and Z seek autonomy and purpose at work job crafting offers a potential silver bullet to many workforce problems Aimed at managers executives scholars and executive education students Job Crafting rejuvenates discussions of job design leaving readers informed and ready to discuss how to improve their performance and satisfaction in all sectors *Work, Working and Work Relationships in a Changing World* Clare Kelliher,Julia Richardson,2018-12-17 This book is concerned with the rapid and varied changes in the nature of work and work relationships which have taken place in recent years While technological innovation has been a key contributor to the nature and pace of change other social and market trends have also played a part such as increasing workforce diversity enhanced competition and greater global integration Responding to these trends alongside cost pressures and the need for continued responsiveness to the environment organizations have changed the way in which work is organized There have also been shifts in product markets with growing demand for authenticity and refinement of the customer experience which has further implications for how work is organized and enacted At the same time employees have sought changes in their work arrangements in order to help them achieve a more satisfactory relationship between their work and non work lives Many have also taken increased responsibility for managing their own work opportunities moving away from dependency on a single employer The implications of these significant and widespread changes are the central focus of this book and in particular the implications for workers managers and organizations It brings together contributions from an international team of renowned management scholars who explore the opportunities and challenges presented by technological and digital innovation consumer social and organizational change Drawing on empirical evidence from Europe North America and Australia *Work Working and Work Relationships in a Changing World* considers new forms of service work technologically enabled work and independent professionals to provide in depth insight into work experiences in the 21st Century *Disruptive Leadership* Rich Kao,2018-01-02 Disruptive leadership is a topic generating intense interest Companies all over the world are trying to upend their industry through innovative products and services Becoming a disruptive organization however is easier said than done Even more difficult is being a company that continually disrupts Is it possible to discern a code for how companies can achieve this In this highly readable and engaging book a disruptive leadership framework is proposed in which caring deeply is placed at the center of the model By turning care into a focal point a triphasic model is proposed that moves from the personal sphere individual to the corporate arena organizational and then to the global stage impact Nine keys are identified along this path for how companies can realize organizational excellence While care may seem like a soft concept in the rough and tumble world of business it is argued how it is actually an inspired manner for providing direction structure and know how that leads to powerful outcomes Apple is profiled as a leading example of leveraging what is termed the technology of caring deeply Other companies such as Nike IKEA Zappos Starbucks are also profiled Finally a leadership canvas is provided to help activate the lessons shared in the book **Information Technology for Management** Efraim Turban,Carol Pollard,Gregory R.
