

The background features a vibrant, abstract design. It includes several horizontal and vertical bands of color: purple at the top, yellow and blue in the middle, and green and orange at the bottom. A large, semi-circular shape in magenta and green is prominent on the right side. Dotted lines in various colors (purple, green, yellow, orange) are scattered across the design, adding a dynamic feel.

Couples of Mixed HIV Status Nancy L. Beckerman, 2005 Previous books on this subject mostly written in the days when HIV AIDS was considered a fatal rather than a chronic disease focused on end of life issues This volume however addresses the unique emotional challenges facing couples of mixed HIV status today It provides examples of how to apply emotionally focused couple therapy to help them work through issues including disclosure the fear of HIV transmission shifts in emotional intimacy family planning betrayal mistrust and uncertainty The book is generously illustrated with tables that make complex research results easy to access and understand *Behind the Eight Ball* Tanya Telfair Sharpe, 2012-12-06 Inner city black women open their hearts to share the pain of crack addiction and its consequences Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women documents an American tragedy that highlights the widening gap between social and economic classes In their own words poor black women nameless faceless and marginalized by poverty share the details of their lives before and after crack cocaine invaded their communities each recalling the circumstances of her introduction to the drug and her first experience using sex to support her addiction These candid interviews expose the socioeconomic changes in inner city neighborhoods that created the perfect conditions for a crack stronghold the crack cocaine economy's impact on the lives of inner city residents and the social and familial consequences of crack addiction among poor black women Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women places crack addiction crack related prostitution and its consequences STDs HIV and pregnancy into the context of the larger social issues of inner city poverty race gender and class This unique book reveals the sex for crack barter system as evidence of a long term social exclusion and systemic racism that has worked to destroy the self image of poor black American women The women interviewed reflect this negative image exchanging sex for crack on a regular basis to support their addictions at the risk and reality of unplanned pregnancies The baby I am carrying now I don't know who the father is There are a few men that I had sex with around the time I got pregnant that day But which one it is I don't know who Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women examines why poor black women addicted to crack are disproportionately at risk for sexually transmitted diseases including HIV and unplanned pregnancies how the social and economic characteristics of poor black communities support crack distribution and consumption how crack use and the exchange of sex for crack damages struggling black families why the care of many children is entrusted to child welfare agencies how and why women are marginalized in the crack culture Behind the Eight Ball Sex for Crack Cocaine Exchange and Poor Black Women is an insightful and enlightening look at the motivations behind the decision to risk illness injury disease death and pregnancy to support addiction **Lesbian Women and Sexual Health** R Dennis Shelby, Kathleen Dolan, 2014-07-16 Interviewer Where did you find out how to have safe lesbian sex Val I found out in jail Why do so many lesbian women engage in sexual behavior that puts their health even their lives at risk Many know they're at risk yet somehow feel safe enough to behave as if there is

no reason to practice safe sex Lesbian Women and Sexual Health The Social Construction of Risk and Susceptibility examines how lesbian women perceive their level of risk for HIV and other sexually transmitted infections STIs It describes how their perceptions of risk and susceptibility are shaped by factors such as sexual identity cultural themes and community knowledge and how those perceptions impact on the very real HIV STI risks that lesbian women face The genesis of Lesbian Women and Sexual Health The Social Construction of Risk and Susceptibility lies in Kathleen Dolan s exploratory study of this under researched area in which 162 structured interviews and 70 in depth interviews were conducted with women who self identify as lesbians What these women have to say will inform educate and probably surprise you Tables and figures make complex data easy to access and understand Lesbian women construct and label their identities and actions in complex ways that may lead to risky behavior In the words of the women surveyed and in Dr Dolan s insightful commentary this book explores the ways in which lesbian women construct their perceptions of risk and susceptibility to seek answers to questions that include Do many lesbian women see themselves to an extent as immune to HIV contraction How does their self constructed sense of risk and susceptibility lead to making dangerous choices Why in spite of their professed willingness to engage in protective actions do many lesbians not actually do so Why do many lesbian women and some of the health care professionals who serve them feel that pap smears are not necessary for women who have sex only with other women and what are the consequences of this opinion What is the relationship between drug alcohol use and risky sexual behaviors in lesbian women Lesbian Women and Sexual Health The Social Construction of Risk and Susceptibility is an important resource for women s lesbian health advocates health care professionals and courses in gay women s medical studies It addresses gaps in the existing research to enhance our understanding of the physical and mental health status of lesbian women of risk factors and protective actions regarding HIV and STIs and of the conditions for which protective actions actually reduce risk Use it to update your knowledge of this under studied area at the intersection of physical emotional and sexual health

**AIDS      Psychotherapy And AIDS** Lucy A. Wicks, 2016-01-20 Psychological treatments seek to support changes in patients's lives. Normally they get better and move on with their lives. The time line is often different in dealing with the medically ill including those with HIV. While making progress psychologically patients may become more physically dependent. Divided into 3 parts, this book presents information and clinical material in a range of topics to support psychologically informed treatment of individuals who are HIV positive. Each chapter proposes techniques and methods to address different concerns commonly encountered with this population. In addition, case studies are provided throughout.      **Bibliographic Index**, 2007

**Abstracts**, 1996      **Book Review Index**, 2006 Every 3rd issue is a quarterly cumulation      **AIDS Literature & Law Review**, 2001      **Handbook of Family Development and Intervention** William C. Nichols, 2000-02-25 Like all complex living systems, a family during its life course proceeds through predictable stages of development. Yet every family is different; its uniqueness defined and continually redefined by an open-ended array of structural, biological, and sociocultural variables. And as with all living things, a family's continued well-being depends upon its ability to adapt to changes arising from both within the family system and without. First postulated in the 1940s, these basic ideas constitute the conceptual core of modern family development theory. From them has blossomed an impressive body of knowledge about family health and illness without which much of the progress occurring in family therapy over the past half century would not have been possible. This book does much to promote continued progress in the practical application of family development theory by affording family therapists an unparalleled opportunity to acquaint themselves with the most important trends in family development theory to emerge over the past decade. In it, you will find contributions from leading theorists, researchers, and clinicians arranged so as to provide a systematic treatment of the latest thinking on family development seen from both the systemic viewpoint and that of individual members of the system. Comprehensive in scope, this book explores the patterns, processes, and dynamics inherent in traditional families as well as in important structural variants such as single-parent and gay and lesbian families and families with special needs and problems including divorce, physical abuse, and disabilities. Since progress in the social sciences is as much about formulating viable new ways of seeing as it is about determining quantifiable facts, the editors offer equal time to an array of influential and sometimes radically conflicting schools of thought including sociobiology, social psychology, constructionism, multiculturalism, postmodernism, and feminism. Mainstream family therapists will find much in this handbook that they will consider controversial. In some cases, readers may even be outraged by the views expressed. Yet thanks to the high caliber of scholarship, intellect, and professionalism evidenced throughout, none of the ideas advanced in *Handbook of Family Development and Intervention* can be easily dismissed, and all have something of value to offer the thoughtful, dedicated family therapist. *Handbook of Family Development and Intervention* is a valuable professional resource for all couples and family therapists. It is also must reading for graduate students in family psychology, family therapy, social work, and counseling. In this magnificent volume, the editors make a major contribution that integrates individual and family

development concepts and therapeutic applications by bringing together scholarly yet fresh contributions The inclusion of various family forms and of families with special needs makes this volume especially relevant to the treatment of contemporary families as we enter the new millennium This superb Handbook should be mandatory reading and an excellent reference for teachers researchers and therapists at all levels of development Celia J Falicov PhD President 1999 2001 American Family Therapy Academy Men Like Us Daniel Wolfe, Gay Men's Health Crisis, Inc, 2000 For nearly two decades GMHC has provided vital support education and health information to gay men Now with Men Like Us their guidance and the insights of hundreds of gay men across America will help readers everywhere Practical down to earth and accessible this authoritative health resource covers such topics as body basics exercise and diet relationships and intimacy sexual pleasure medical care prevention and healing mental health and therapy spirituality and community and much much more Filled with expert advice from leading doctors lawyers therapists and fitness instructors to ordinary gay men whose stones provide important voices of experience Men Like Us opens a window onto the ways gay men in all their diversity care for themselves and each other Medication Adherence in HIV/AIDS Jeffrey Laurence, 2004 **Bibliographic Guide to Psychology** New York Public Library.
