## COST ACCOUNTING STANDARDS

Cost Accounting Standards (CAS) are a set of standards that are designed to achieve **UNIFORMITY** and **CONSISTENCY** in cost accounting practices.

Let's understand the difference between Uniformity and Consistent (FYK):

Basis	Uniformity	Consistency
Meaning	<p>Uniformity is the practice of requiring organizations to record cost accounting information in accordance with a relevant cost accounting framework. By requiring strict adherence to a cost accounting framework, <b>every entity in an industry</b> should report cost information in the same way.</p> <p>Further the cost accounting principles should be applied in the similar manner in the various heads / sections of the cost accounts.</p>	<p>Consistency requires that a company's financial statements follow the same cost accounting principles, methods, practices and procedures <b>from one accounting period to the next</b>.</p> <p>The concept of consistency means that cost accounting methods once adopted must be applied consistently in future.</p>
Importance	<p>In absence of uniform costing methodologies or disclosure requirements, no meaningful inter-firm comparisons can be made by the Companies in the industry.</p>	<p>In absence of consistent costing methodologies or disclosure requirements, no comparisons can be made by the Company between various years.</p>

The need / benefit / advantages of cost accounting standards are that they:

(December 2019)

- provide a structured approach to measurement of costs in manufacturing process or service industry;
- integrate, harmonize, and standardize cost accounting principles and practices;
- provide guidance to users to achieve uniformity and consistency in classification, measurement, assignment, and allocation of costs to products and services;
- arrive at the basis of computing the cost of product, activity, or service where required by legal or regulatory bodies;
- enable practicing members to make use of Cost Accounting Standards in the attestation of General Purpose Cost statements; and
