MIT'S HISTORY REVEALED THROUGH ITS MOST
EVOCATIVE OBJECTS

Countless Connecting Threads Mits History Revealed Through Its Most Evocative Objects

**Marie-Pier Boucher, Stefan
Helmreich, Leila W. Kinney, Skylar
Tibbits, Rebecca Uchill**

Countless Connecting Threads Mits History Revealed Through Its Most Evocative Objects:

Countless Connecting Threads Deborah G. Douglas, Ariel Weinberg, 2013 These countless connecting threads woven into one indissoluble texture form that ever enlarging web which is the blended product of the world's scientific and industrial activity William Barton Rogers 1860 Objects and Plan of an Institute of Technology Inspired by an exhibition of 150 objects created by the MIT Museum to mark MIT's sesquicentennial this lavishly illustrated volume is a unique collection of visual and written meditations about the making and meaning of the Massachusetts Institute of Technology The story of MIT is more than a simple tale of a founder's vision It is greater than the sum of all the stories that have been or are yet to be told by the hundreds of thousands who have a direct personal connection with the Institute Yet with the assistance of the collective intelligence of the MIT community the Museum was able to capture some of those countless connecting threads from a towering module for the first real time digital computer to the famous Baker House Piano Drop Part history part catalog part souvenir Countless Connecting Threads invites readers to re-discover through some of the Institute's most evocative objects the essence of the vast and varied tapestry that is MIT

Being Material Marie-Pier Boucher, Stefan Helmreich, Leila W. Kinney, Skylar Tibbits, Rebecca Uchill, 2019-10-22 Explorations of the many ways of being material in the digital age In his oracular 1995 book Being Digital Nicholas Negroponte predicted that social relations media and commerce would move from the realm of atoms to bits that human affairs would be increasingly untethered from the material world And yet in 2019 an age dominated by the digital we have not quite left the material world behind In Being Material artists and technologists explore the relationship of the digital to the material demonstrating that processes that seem wholly immaterial function within material constraints Digital technologies themselves they remind us are material things constituted by atoms of gold silver silicon copper tin tungsten and more The contributors explore five modes of being material programmable wearable livable invisible and audible Their contributions take the form of reports manifestos philosophical essays and artist portfolios among other configurations The book's cover merges the possibilities of paper with those of the digital featuring a bookmark like card that when seen by a smartphone generates graphic arrangements that unlock films music and other dynamic content on the book's website At once artist's book digitally activated object and collection of scholarship this book both demonstrates and chronicles the many ways of being material Contributors Christina Agapakis Azra Akamija Sandy Alexandre Dewa Alit George Barbastathis Maya Beiser Marie Pier Boucher Benjamin H Bratton Hussein Chalayan Jim Cybulski Tal Danino Deborah G Douglas Arnold Dreyblatt M Amah Edoh Michelle Tolini Finamore Team Foldscope and Global Foldscope community Ben Fry Victor Gama Stefan Helmreich Hyphen Labs Leila Kinney Rebecca Konte Winona LaDuke Brendan Landis Grace Leslie Bill Maurer Lucy McRae Tom zden Schilling Trevor Paglen Lisa Parks Nadya Peek Claire Pentecost Manu Prakash Casey Reas Pawe Roma czuk Natasha D Schill Nick Shapiro Skylar Tibbits Rebecca Uchill Evan Ziporyn Book Design E Roon Kang Electronics interactions and product designer Marcelo Coelho

When people should go to the ebook stores, search creation by shop, shelf by shelf, it is in reality problematic. This is why we allow the books compilations in this website.
