Knowledge Transformation and Innovation in Global Society Hoa Van Thi Tran, Hiromi

Shioji, Huong Lan Thi Le, Takabumi Hayashi, 2024-02-27 This is the first book to fully explain the changing management and business models in the current era of important new developments in knowledge and information occurring all over the world. The research and its outcomes presented here focus especially on diverse cases from emerging countries in East Asia where local companies face similar technological change. The pandemic has seriously changed people's lives and affected the development of society as a whole while digital technologies have become even more greatly in demand. Those are very difficult to fit into traditional management models created decades ago however. For the successful implementation of such a transition new paradigms models and technologies for the transformation of control systems are needed. To meet that need a new paradigm to bring about innovation under the new knowledge transformation system is required. This book presents the experiences of beginning such a knowledge transformation in East Asian countries. Despite the fact that the countries are in the same geographical region their experiences are quite diverse determined by cultural historical religious and psychological factors. These differences appear not only in such important areas as R&D processes but also in production finance HR management and marketing. Readers will find innovative solutions for the transformation of management in the new knowledge transformation system that is the focus of this book.

Bank 2.0

Brett King, 2010

The financial crisis is just beginning for retail institutions. Ninety to ninety five per cent of bank transactions are executed electronically today. The Internet ATMs call centres and smartphones have become mainstream for customers. But banks still classify these as alternative channels and maintain an organisation structure where Branch dominates thinking. Continued technology innovations Web 2.0 social networking app phones and mobility are also stretching traditional banking models to

the limit BANK 2 0 reveals why customer behaviour is so rapidly changing how branches will evolve why cheques are disappearing and why your mobile phone will replace your wallet all within the next 10 years
